

Time for Soup?

By
Jon Marusek

After more than 30 years of protection is it really time to delist the Hawaiian Green Sea Turtle?

French Frigate Shoals

Land area: approx. 60 acres

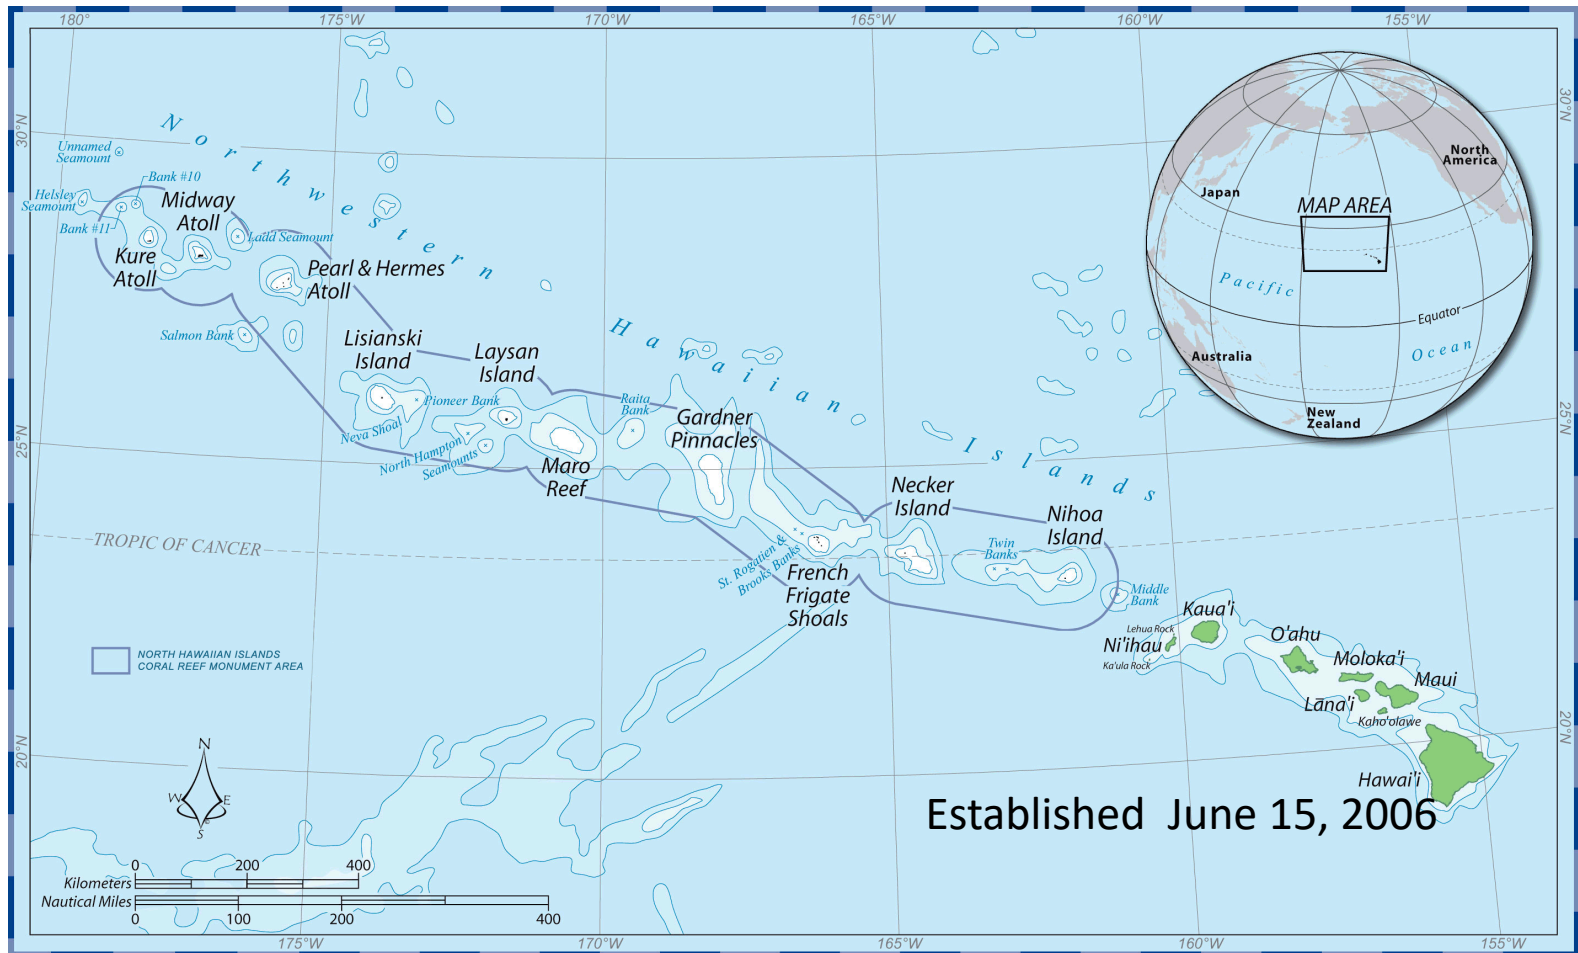

Elevation: approx. 2 meters

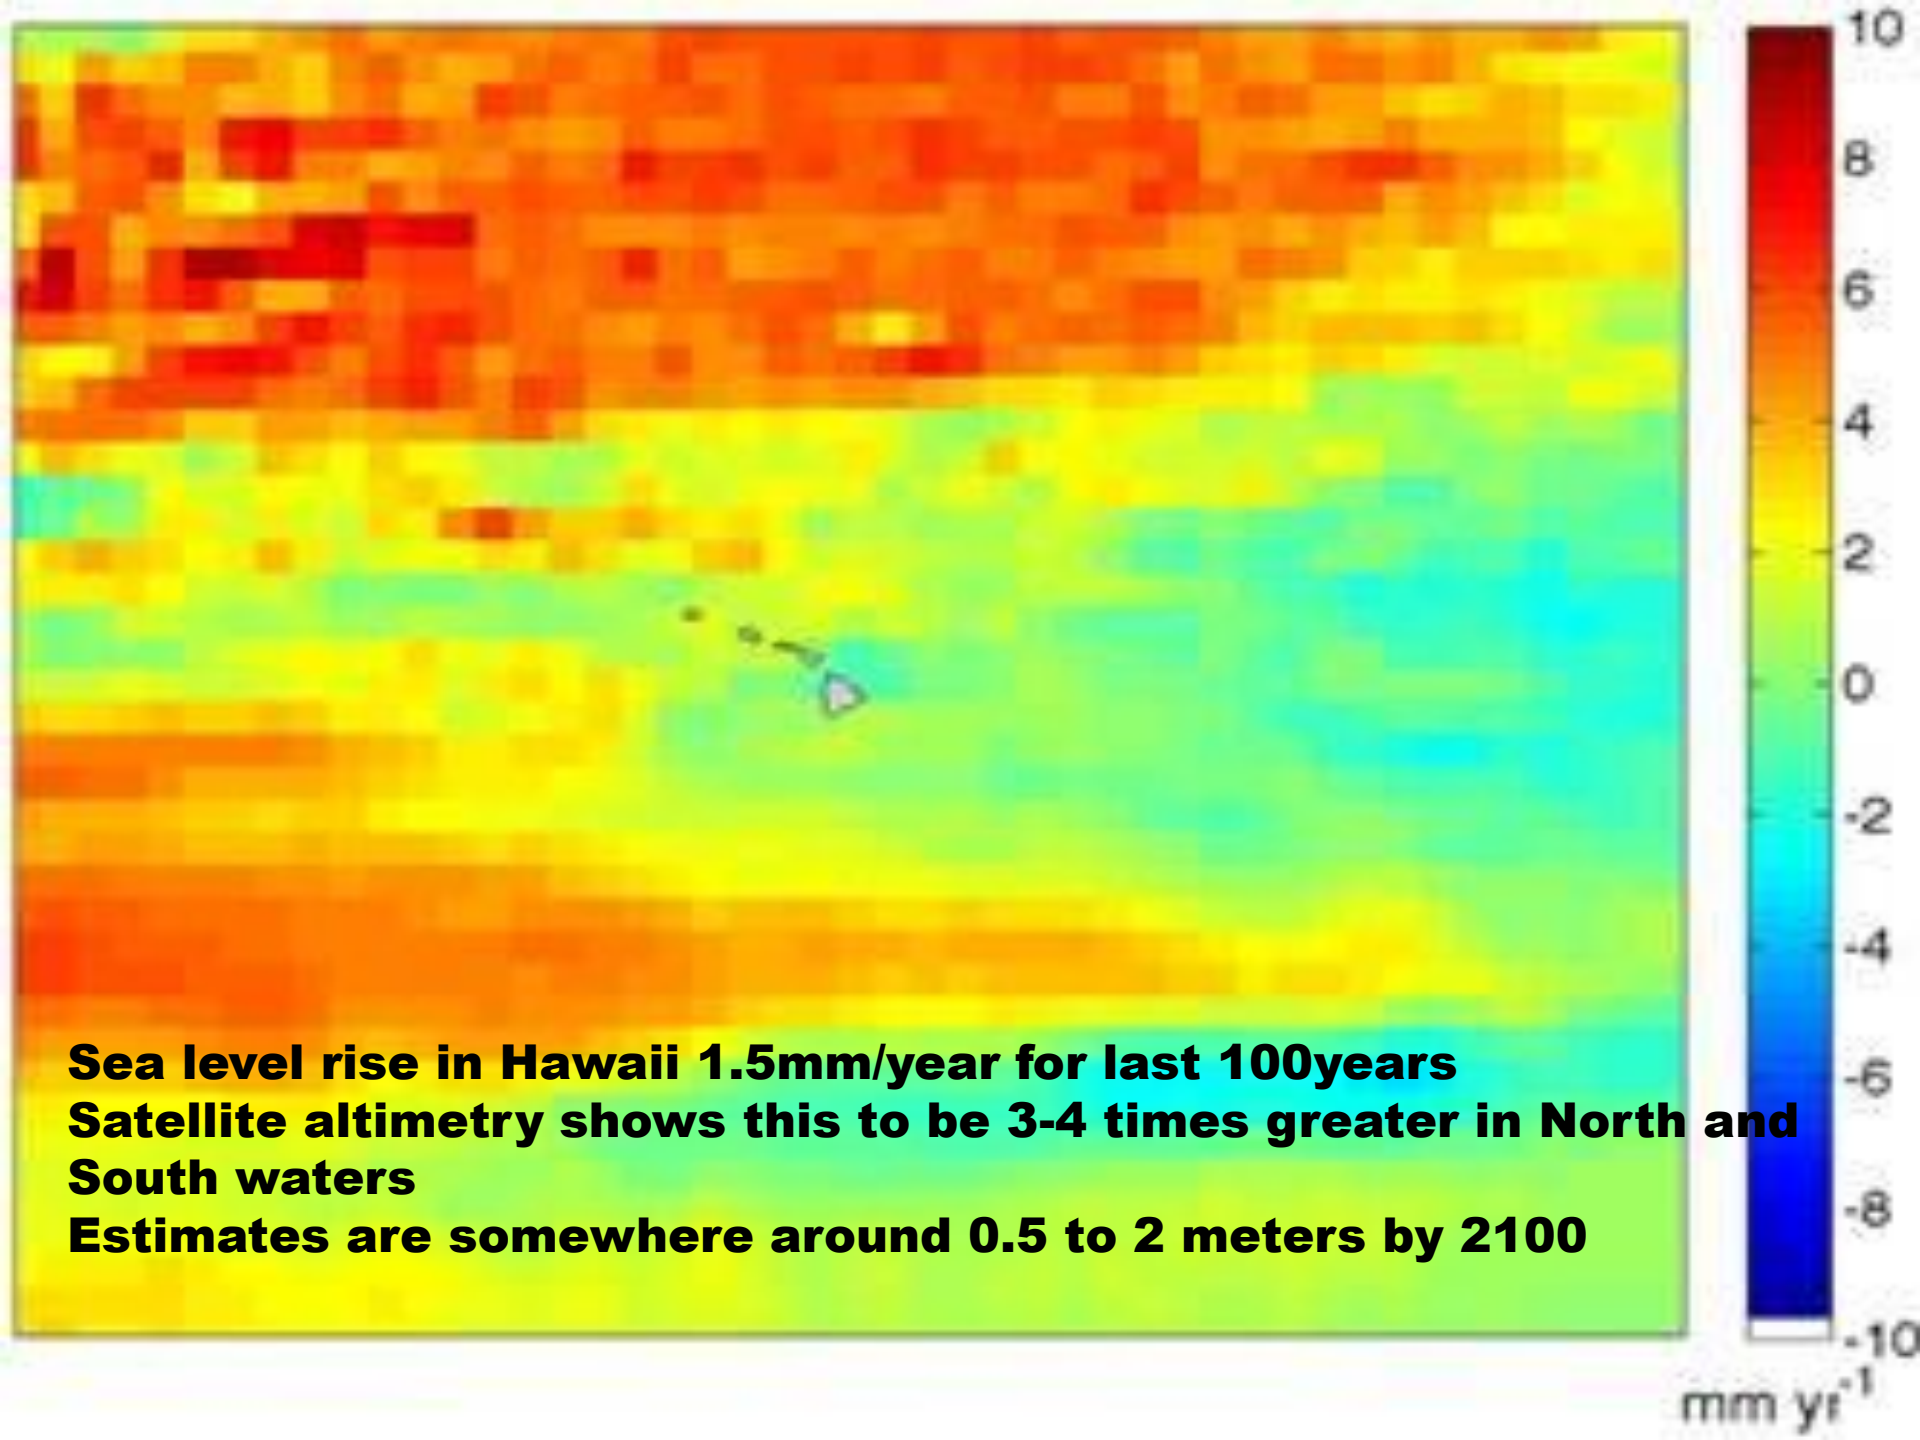

Accounts for 90% of nesting grounds

The rest of the Hawaiian Islands accounts for the remaining 10% of nesting sites including a few in the Main Hawaiian Islands

Papahānaumokuākea Marine National Monument

Temperature effects of Global Warming
Males need a temp of approx. 82 F
Females need a temp of 88 F or above
In between these temps a mix

Safe for Now
