 THIS TRIP

Arrive Punaluu ~ 245 pm - students Walt,
 John Casey, Mike Childers, Tom Hammond,
 Brian Tissot there. Shallow from tide
 down, but turtles seen below pavilion.
 Dome seen behind pavilions where one was
 taken 3/92. Perhaps taken from tidal pond
 behind small pavilions.

Students and I spent time watching ^{POWOLB} pond
 turtle reported trapped ~ 1 hour watching - nothing
 seen. Four students went in below
 pavilion - too rough for nets. One small
 untrapped captured, but they should have
 caught at least 2 others.

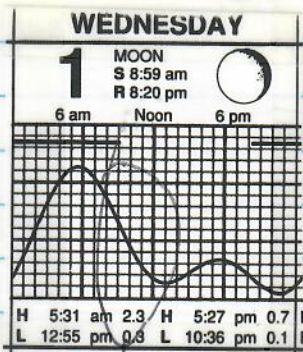

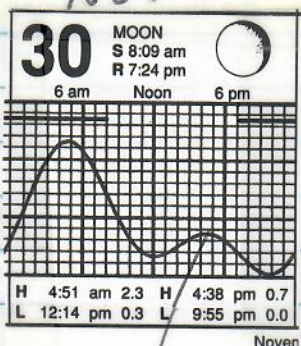

Walked from Nihoa Pond at Sunset back
 to pavilions looking for signs of nesting or
 feeding close to shore. Neither seen.
 Rough at Horseshoe, even though tide low. This is
 due to wind-driven waves ashore - out of East.

----- Message Contents -----

Gloria transferred a call back to me from Alan Akau, a DOCARE officer on the Big Island. He wanted to know if we ever got a report of a turtle found in the pond near the golf course near Punaluu Beach Park about one month ago. He said he got a call from a lady at the golf club house, and checked it out himself. It was a large turtle about 100#. He didn't see the turtle up close, but he said he didn't see any tumors, tags, or line on the turtle. He said he left a message on someone's recorder, but didn't know whose one. He had our 2 numbers, but we don't have a report on this turtle. Directions to the pond are...take the 2nd entry to Punaluu (the one that takes you to the golf course), turn right (like you're going to the club house), look for a fire hydrant with a road on the left (it's a jeep path, but driveable with a regular car), then the pond should be directly in front. The pond is about 1/4 the size of the pond at Punaluu, and it's 8-10 feet deep. He doesn't think it got in by itself because the pond is separated from the ocean by lava rocks. He said he'll try and check to see if the turtle is still there, and I said I would let you know about this case before you leave for Punaluu (he knew you were going to be up there on the 13th). If you would like to call him back his number is 933-4291.
