SUBJECT: Nesting Update at Kamehame

FAX #: 808/943-1290

FAX #: 808/985-8614
PHONE: 808/967-8226

NO. PAGES FOLLOWING: 1

Hi George,

Attached is an update of nesting activities at Kamehame. As noted, I used a 16 to 21 day re-nesting interval based on this year's data. I'm confident you will be busy handling turtles during your visit.

As discussed yesterday, Jill Lippert will be meeting you folks at the gate on Sunday afternoon. She is expecting your call and will have the cellular phone on from about 1445 hours. She also has Mark's and your phone numbers. I've arranged to have an extra gate key for Mark Rice since he may be returning on Monday evening? Jill will have the key.

I would like to be with you folks on Sunday but I won't know until the last minute.

KAMEHAME

8/26/95 Sat. Telecon w/ Jill 936-7065 8pm, ^{nothing yet} tonight.
- Nothing up 8/24-8/25 (?)
- One nested 8/25-8/26

22134, bad bird flipper, has not returned yet.
BACKNOTES

- Couple running restaurant at Naelehu - Okinawa man said in 1947 he ate turtle - when he told his father, he said never to eat it again. On Okinawa, a fisherman was rescued by hanging on the back of a turtle that swam ashore.
- Pancho Freitas - need to ask history of Kamehame. KNOWS HOWARDS.
- Need "How Project" involvement for Kamehame sanctuary
- Return box
- Rules about gillnet in HVNP. ~~Enforcement~~ Enforcement officers don't enforce, present Superintendent of park now was head of enforcement.

Date: Mon, 1 May 1995 17:31:40 -1000 (HST)
From: "George H. Balazs" <gbalazs@hnlab.nmfs.hawaii.edu>
To: Hallacher Leon <leonh@uhunix.uhcc.hawaii.edu>,
Dudley Walter <dudley@uhunix.uhcc.hawaii.edu>
Subject: Punalu'u data

Walt/Leon- In Wednesday or Thursday's mail each of your will be receiving a summary current to our last trip on all tagging in our work at Punalu'u. I'd like you to take a little time to look it over. I realize there are weaknesses in the way I'm using the Petersen Index over such a long period of time. However, it's striking to me that except for a few higher and lower values, our estimated population for the site is fairly constant between about 160 and 250 or so. In fact, it appears to me that these data provide no evidence of a population increase. What we might be dealing with is the near total shift from night to day feeding, and the increasing tameness of the turtles, resulting in perceptions of more turtles (we can see them now) and tameness that allows us to catch many more than we did in the past. I throw this out for your thought and comment, after you've looked at what I've mailed.

Another point to ponder. It seems clear to me that heavy grazing is occurring on the Pterocladia. In the past the Pterocladia always (by my memory) looked longer and more lush. What troubles me is that just short distances down the coastline, easily within 1-2 km, there appears to be large amounts of Pterocladia just "waiting" to be grazed. We saw evidence of that when I led The Honu Project people out to "turtle bay" following right after you left Punalu'u.

Ponder also the following: On our last trip we caught 30 turtles-- 28 were recoveries. 9 of the 28 were also recaptured on our preceding trip of 10/94. And another 7 were also recaptured 2 trips ago during 9/94. So 16 of our recent recaptures (57%) are ones seen over again quite recently. Here's a breakdown of when the 28 recaptures were originally tagged:

1981- 1
1984- 1
1988- 2
1989- 1
1990- 1
1991- 4
1992- 7
1993- 6
1994- 5

Our daytime capturing started in April of 1989. Remember, we did that because we weren't catching much of anything at night, but were by hand when snorkeling during the day. Since April 1989 (expedition #15 of 31) up to the present we have tagged 100 new turtles. Prior to that we tagged 104 (i.e., Jan. 78 to March 88). A total of 204 turtles have now been tagged by us at Punalu'u.

I hope we can talk story later about all of this. There is something interesting going on here-- that we don't fully understand yet. All of this does, however, give me plenty of motivation to net at night again, to see if there is another "population" of turtles (maybe all untagged!) feeding in the bay at night.

Hi George,
Chris Bengay just called me about a "large" turtle in the brackish pond at Niwale - this is the same pond where we looked for a turtle last year - Chris noticed the turtle swimming along the bottom of the pond this morning - Any suggestions ????

Hawaii Tribune-Herald, Sunday, June 4, 1994

Letters

Protecting turtles

I would like to commend the Hawaii Tribune-Herald for the 5/25 informative article by Dave Smith, on the recently approved SCR '89 concerning Punaluu and Kamehame Beaches in Ka'u.

I would like to add a note of thanks to Sen. Andy Levin for his leadership in passing this piece of vital legislation. I also want to express my gratitude for the hard work of the dedicated office staff of Sen. Levin. Finally, mahalo to those who brought their concerns about Punaluu to my attention, to those who attended the public forum at Punaluu Beach, and to those who provided written comments on the legislation.

The residents, endangered Hawksbill turtles, the threatened green sea turtles, and other flora and fauna will benefit greatly if Punaluu and Kamehame Beaches can be given the protections they deserve.

I would also like to correct a bit of misinformation. A vendor at Punaluu called me today and requested that it should be noted that he does pay an unspecified amount of rent to Roberts Hawaii for the structure that is on the beach. It remains unclear as to why Roberts Hawaii is collecting rent on land that is makai of the high tide line and properly belongs to the people of the State of Hawaii. For these and other reasons, it is wonderful that this

study is being done, as required by SCR 89, to work out these concerns and answer the questions.

Councilmember John Iwamoto
Puna, Kauai

Aloha at Kiholo Bay

It's pretty amazing. I look back now on the lesson shown to me by a lady whose name I did not know.

Saturday afternoon hiking at Kiholo Bay, I hurt my elbow. Sitting in pain and wondering how to deal with this, she just appeared...from nowhere...with a First Aid Kit. "I never leave home without it," she explained. "I'm a health nurse at a school, and I bring it with my kids."

Lucky for me! What a good heart she has. Without a less sense of giving she has for a total stranger.

To that lady: Your help and advice were invaluable to me. I'm much improved now by the way. Also, I did thank you then for your help. I think you deserve more. If only I knew your name, I would repeat it here to recognize your aloha, and thank you again.

Letters

Protecting turtles

I would like to commend the Hawaii Tribune-Herald for the 5/25 informative article by Dave Smith, on the recently approved SCR 89 concerning Punaluu and Kamehame Beaches in Ka'u.

I would like to add a note of thanks to Sen. Andy Levin for his leadership in passing this piece of vital legislation. I also want to express my gratitude for the hard work of the dedicated office staff of Sen. Levin. Finally, mahalo to those who brought their concerns about Punaluu to my attention, to those who attended the public forum at Punaluu Beach, and to those who provided written comments on the legislation.

The residents, endangered Hawksbill turtles, the threatened green sea turtles, and other flora and fauna will benefit greatly if Punaluu and Kamehame Beaches can be given the protections they deserve.

I would also like to correct a bit of misinformation. A vendor at Punaluu called me today and requested that it should be noted that he does pay an unspecified amount of rent to Roberts Hawaii for the structure that is on the beach. It remains unclear as to why Roberts Hawaii is collecting rent on land that is makai of the high tide line and properly belongs to the people of the State of Hawaii. For these and other reasons, it is wonderful that this

study is being done, as required by SCR 89. We need to work out these concerns and answer these questions.

Councilmember Julie Jacobson
Puna, Ka'u & Eleele

Aloha at Kiholo Bay

It's pretty amazing. I look back now on the kindness shown to me by a lady whose name I did not get.

Saturday afternoon hiking at Kiholo Bay, I fell and hurt my elbow. Sitting in pain and wondering how to handle this, she just appeared...from nowhere...with First Aid Kit. "I never leave home without it," she explained. "I'm a health nurse at a school, here with my kids."

Lucky for me! What a good heart she has. What a selfless sense of giving she has for a total stranger.

To that lady: Your help and advice were valuable to me. I'm much improved now by the way. Although I did thank you then for your help, I think you deserve more. If only I knew your name, I would repeat it here to recognize your aloha, and to thank you again.

Tom Feltz
