Subject: Turtle Independence Day

wore ✓
other turtle
please

Aloha again,

George, I was just checking to see if you and your wife will be able to stay here at the hotel the nights of July 2nd. and 3rd. I have a room already reserved for you if it is possible for you to stay this year. Also, I will be bringing your flight coupons for Turtle Day with me when we all meet at Sea Life Park next week.

Biting update:

Last week we had a report of a small child slightly bitten by a turtle in front of the hotel's beach. The father said he was holding the little boy in the air so the boy's toes would just touch the turtle's head in the shallow water and the turtle then bit the boy. The injury did not break skin and the hotel management is aware of the incident. The turtle that has been frequenting the beach in front of the hotel the past week is Q-585 (right flipper), released on July 4, 1996.

Once again, a turtle that was released years ago.

There has been no feeding that I am aware of in front of the hotel for over a year now. I am told by the beach boys that a turtle is now hanging out almost daily at the shoreline. The animal (Q-585) appears to me to be in fine health, but acts like it is begging the same way #3 does over at Beach Club. There are almost always some turtles near the hotel, but not actively following the guests around in this same manner.

Also, I just got a report at 2 pm. today of a dead Hawksbill with a hook in the mouth at the LST landing in Kawaiihae harbor. I called DOCARE and they picked it up right away.

Just keeping you posted, I look forward to our meeting. Bye for now,

pping out a good plan (fwd)

Aloha again,

I will make time to come there to Oahu any time necessary for a meeting concerning this. I have left a phone message for Paka.

As for the turtles (#3&4) here at Mauna Lani Beach Club, #3 still approaches swimmers, and likely may be the turtle seen about 50% of the time. While snorkeling there two days ago, #3 approached me and then swam slowly away. I have not seen #4 myself in three months, nor heard of two turtles commonly being seen around Beach Club together. I still get occasional reports of isolated feeding, and always check out any that I am aware of here.

I have not had a report of anyone being nipped by the turtles for 3 months. Only one report to me of a bite since Jan. 1st., weeks after the incident.

Just filling you in to let you know what I know around here lately. Talk with you later there I guess, bye for now,

- > of being larger and less susceptible prey than they would be as hatchlings."

- > reasonably sort out. I would appreciate some explanation about this from
- > the Mauna Lani, shared with all present at the meeting. This is a serious
- > blow to credibility and "corporate will" to listen and indeed read the
- > things I have sent to the Mauna Lani (i.e. the symposium paper).
- >

Laupahoehoe Point Park - Picnic play frisbee with the kids or just take a quiet break under a rustic old pine. This area was treated when a lava flow from Mauna Kea poured into the sea and created a wide flat point shaped like a leaf (lau). Today a large green span of grass gives dramatic contrast to the rugged lava jutting from the sea. Once one of the few spots where canoes could land between Hilo and Waipio, this park is now a favorite camping ground. •North 24.4 miles to right at sign, 1.1 miles to park. Map 6,E7

Keaukaha Beach Park - The community around Keaukaha is one of the oldest "Hawaiian Homes Commission" settlements. The large structure in the park is Hale 'Aina, a pavilion originally used as a community social hall. This is a favorite spot for swimming and the spring fed pools offer cool waters with easy access. The area's natural wetness makes for lush deep green grass perfect for picnicking. Also, this is a popular fishing spot of the locals. •East on Route 19, 1.6 miles to park. Map 5,D10

Onekahakaha Beach Park - A large breakwater and a number of retaining walls create several sandy bottom pools in this lovely park, recently renovated and re-opened in Jan. 1996. It offers many pavilions, lifeguard service and beautiful grassy picnic areas. This is a favorite swimming spot for the Hilo community and ideal for adults and children. However be aware that the breakwater does not guarantee safety during high surf months. •East on Route 19, 1.8 miles to left at sign, then 0.2 miles to park. Map 5,D11
