Hello George,

Here is a copy of the magazine article I wrote about Hawkswills. I recently saw you at Punaluu and you allowed my daughter Crystal to help with your work. It was a real boost for her, and for me in seeing her being able to get involved. Let us know when you are →

Coming again if you need more hands.

----- Message Contents -----
George... spoke with Mr. Nakasone (very nice man)... he said that he found it on Friday, July 5 around noon. It was low tide at the time and windy. He said that he saw lots of turtles. He was glad to provide the information and help.

Yes, please call him back to get the date info. Resend this message to me then. Thanks! Geo.

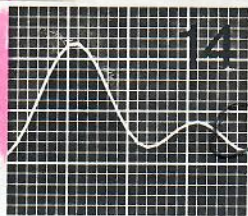

— IN FRONT OF GIFTSTANDS —

Just received a phone call from Steven Nakasone, 3104 Harding Ave., Honolulu, HI 96816, 734-4684. He said that while he was at Punaluu (on the Big Island), he and his kids found tag# N389 in one of the tidepools. They were looking for turtles when he saw something shiny. I asked if he could mail it to us and he said that he would. I forgot to ask him when he went and exactly where. Tried calling back, but there was no answer or recorder.

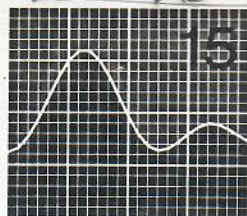

P.S. This turtle was captured on your last trip to Punaluu (June 96). LFL had a healed v-notch. Just a recent tag loss?
