2

- Light sticks of different colors
- UW camera dispose-or-Nikonos-or wet/dry for Pentax
- Predict - Disease is proceeding to KONA?  
No mangroves/elevated sea water in KONA?  
Possible

see also p. 15

### STRESSORS / ASSOCIATORS =

- Need Liquid N to freeze base of huge tumors.
- Need safe fish stickers + close up photo to Association, with short cut of line taped on back. Computer scan/print
- EATING in MC <sup>an grove</sup>? 923T seldom leaves?
- SUNK in MUCK?
- Different Manifestation on Tumors at KAPOTO? need PCR by Jim (or Ran Lu).
- Tumors aren't on turtles in ponds. Virus can be in ground water/tidal INFLOX?
- Aerial photo
- UH Hilo class - more <sup>teacher</sup> supervisors needed
- "More explore" MC <sup>complex</sup> needed, <sup>from other side</sup>

Need Biopsy

- Study plan here w/ UH Hilo - ① Catch <sup>some</sup> in BT <sup>at night</sup> at night - hold turtles for A.M. ② Lay net upon student arrival at - First light. Tube w/ net - pull to set with rope might be possible. ③ Work up turtles ④ later in A.M. morning do MC net & snorkel.

- Bleschwater on Nets
- STAY in Mangrove Cove overnight? <sup>inflatable?</sup> <sup>RAFT?</sup> <sup>Shore Platform?</sup>
- UH Hilo - Need more adult instructor supervision

10 July 01

Tuesday Depart alone Alohā Fl. 290 1225 pm  
for Hilo

- 4 Bags = Cooler w/ tag gear etc.
- 2 Dive Bag w/ nets
- 3 Dive Bag w/ dive gear
- 4 Small Suitcase w/ cloths etc.

- OBJECTIVES:
- 1) Search for turtle use at night - Mangrove Cove & dead end area = "blind inlet"
  - 2) Catch & tag them during day w/ students
  - 3) Search other areas for turtle use - catches possible - use small nets as appropriate.
- Look for/look at Turtles in ponds
  - Look at Vaca Island area
  - " " Pottiki - Tired turtles on rock etc.

Arrive ~ 139pm met by Jo Mitchell with key to Rental House.

Washed  
4:30 pm

Met John Coney at Lumber Supply - Bought Plywood - need to send him to make new turtle float tubes.

searched for lite sticks - Drove to Kapoho to meet Mars Rice at Gate -

Readied gear and snorkled blind inlet (BI) 10-15', water water Geothermal heating. NO TURTLES

# KAPOTO II

4

July 10, 01 ~ 530pm to Mangrove Cove (MC)

TUES.  
night

Snoaked  
2

Marc has digital video. Had some difficulty finding entrance. But shouldn't have. (orse in entrance took wrong turn that brought us to same entrance port (went in a circle). Saw lots of turtles (~10) one w/ large tumor (snatched) on RFL I've ever seen, turtle was maybe 65cm SCL. Also saw 923T TRM 1997 note caught 4/4/01 here.

Back to Rental - washed off gear and went to Mexican restaurant in Pshos - excellent food. Heard chirping screaming Caribbean Frogs on 10 mile drive - especially by Tava Tree Park.

~ 930pm Night snoaked to B I <sup>lindy</sup> met. Numerous turtles - large & small juveniles up along edge in mangrove shoots - like seen at Kawaiie (KAWAIE by) (where tumors are also bad) perhaps (10-15 turtles). Some w/ trout tumors, some with large tumors, but few in numbers. Saw a ~45cm juvenile w/ large white TUK on tail.

TO MC <sup>map</sup> but walked from BI across point of land to get to that side.

First we missed inlet channel, once in hard to find MC. Light shots were very helpful but need more than one cold.

Brief overview - Go in channel, turn right, turn left after survey away. Stay to left of Hobbie Cat Hall - go through fallen had - tree branches - toward Tall! Papaya (which will always be there). Coconut trees

not  
there  
5/2002

Night snorkel w/ Marc 7/10/01 Tues.

KAPOTO II 5

July 10 2001 Tuesday  
will be as right. MC opens up - lots of  
sunlight. Soft silt bottom. Large turtles, other  
seen at right rear entry; at entrance to  
MC pond; and also at far end to  
the left. Also <sup>in</sup> along edges as  
coming into/along pathways. Are  
there other channels in this complex  
that were missing? More explore  
needed.

DATA P. 18  
2016  
~ 2 midnight  
Upon return went back to B I <sup>Ind. inset</sup> - turtles  
still there. Marc spotted one entangled in  
fish line LFT & down throat very deep base of flipper cut,  
used hemostat and scissors to get out  
all of it. Used fingers to firmly slowly  
pull on line. Some bleeding of jaw hinge, but  
life came out. Photos.  
Released turtle after motored "EN" each side.

July 11 2001 Wednesday  
Leah <sup>Hawaiian</sup> Joffe <sup>covers</sup>, Lisa Canale, Jill <sup>Lea</sup> arrived ~ 8:30am  
3 vans and a Bronco.  
Dawn Patterson arrived ~ 8:00am.

Leah gave a test. I then described project, Hawaiian  
Sea Turtles. Proceeded to put 8' x 50' net  
across shallow rock ridge blocking off Blind Inlets,  
in case turtles in there or save entry  
to go in. None caught/none present. I  
then took net and students to MC entrance  
used net to block entrance while I took  
a small group in. None seen along the  
way but later learned that one came  
out and was caught in net. At pond -  
1-2 a few large ones batted stirring up mud -  
not seen. Found entangled turtle - brought out.

6

11 July 01 <sup>students</sup> Took 3 turtles back while  
Wednesday I took some students around to look  
in more distance mangrove edge - lots of  
marine debris collects along here. No  
turtles seen.

afternoon  
PM

Worked up turtles - Brass lunch. Put net  
across BI while patting. Nothing.  
~~Kass~~ Took net and repeated  
at MC 923T was only turtle  
seen. <sup>student</sup> grabbed it, rode it around.  
Commented that they jump on turtles all the  
time to ride "at will" so didn't need  
to come on field trip if he wanted to  
ride turtles.

NIGHT  
Two

Clean-up and students left ~ 4:30pm  
Dinner at Mexican restaurant Palome.  
Wrote up notes. Walked around streets, you  
next door neighbor - Rosie, 84yo. Son 60 from  
PCV, lives in Philippines.

12 July 2001  
Thursday

watch BI at dusk - Saw a turtle going in.  
6:30am - watched a turtle going out of BI  
Then slept another hour.

Up 8:00am write up notes. JO came in 9:30am.  
I left ~ 11:30am. Drove and looked for  
tall Papaya visible from inside MC. Couldn't find.  
Drove to Pottiki. Photo ~ 2 miles before + ~ 4 miles  
before - rocky shore/waves Saw 1) 2-3 small juveniles  
2) all adult. May have been more, but watch  
for very long. Photo at Pottiki - Surfer waves

Kapottatt

JULY 12, 01 Drove to Kalapana. Photos  
Thursday Road from Pohiki to Kalapana.

Saw two places along the way w/ turtle  
heads close to shore-feeding.

At Kalapana I walked out across "new"  
lava flow that filled in Kaimu and Panyk,  
Brown Park. New shoreline is sand, pebbles  
in surf, no sign of algae.

Tonga gift shop - most food.

Drove to Iahoa and to Hilo.

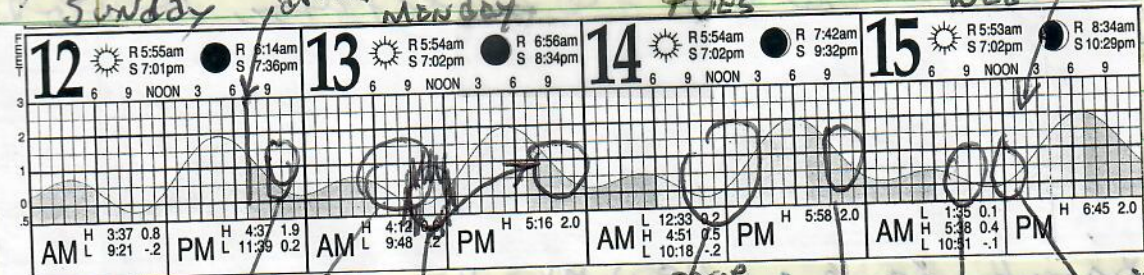

Shopped at KMart.

Departed 3:25 PM Aloha Flight with  
VW Scooter. Marc had driven over from  
HAA Kamehala.
