Low "wall" where Turtles trapped (^{when} ~~MOPOUT~~ ^{HILO} ~~rescued~~ 6

across to end of seawall. Low tide
near zero - no turtles seen when driving around
pond. Walked out to Awai - photos

NOTE: ^{ROCK} road elevated can be washed over at
highest tides/waves - turtles go over,
tide goes down turtles in mangrove
can't get out due to rock road
seems like a low "wall" barrier so
as tide goes out they can't depart.

No damage to wall seen when walking out.
At Awai noted large boulder in
