FAX FOR MR. RICE

I handle the turtles very carefully.

My, how you've grown! (Those are the calipers that we use for measuring.)

The turtles' habitat is so pretty.

### Vocab List

honu (ho-noo) means "turtle" in Hawaiian

calipers a tool with two adjustable legs that is used for measuring thickness or length

bask hang out on a sunny rock or log. It's how the honu warm themselves, and they love it! ★

# I ♥ Turtles

Meimei R.  
Age: 13

**A**t my school, I study marine biology by doing the real thing: helping threatened Hawaiian green sea turtles. Working closely with government scientists, I collect data at the *honu* (turtle) pond at one of the study sites for my school's sea turtle research program. Eight baby turtles—four boys and four girls—live in the pond. They are just a few months old, and each is about the size of a computer mouse pad.

On a typical day, my first task is to collect the turtles with a soft rubber net. Sometimes I find them basking on a sunny rock in the pond or resting under a little waterfall. I check their length, width, and body mass (weight). I love measuring the turtles and watching them grow. I keep detailed records that I'll use for my next science project.

My school's research program also does turtle tagging. The tagging process helps scientists track the *honu*, collect data about them, and better understand them for conservation efforts. With the scientists' supervision, we get to snorkel in the ocean to look for turtles. They swim so fast! We use a special net to gently catch them. Once we have a turtle, we place it in a soft float and swim the turtle back to shore. We have to be careful to hold the turtle in just the right way so that it doesn't slap us with its flippers. Back on the beach, we help the scientists tag the turtle and briefly examine and measure it before release. It is exciting to be so close to the turtles, and I feel really good knowing that I'm helping to save them.

Remember to pack into my book bag:

- Turtle data folder and notebook
- Turtle diet sheet and data sheet
- Background information sheets on the baby turtles

It'd be fun to swim all day!
