

SATURDAY 12 JANUARY 1980

KAM

Survey of Lanikai turtle report area. 860 Mokolua  
 Dr. - the house is near the entrance of the Lanikai  
 community, public-right-of-way is 3 houses from  
 subject house. Time: 1100, peak high tide,  
 water: calm, no shorebreak, but water is very  
 brown, dirty and cloudy. In front of the  
 house there appears to be several reef areas,  
 possibly a good place to set the net - though  
 there is no beach to pitch camp, public-  
 right-of-way is moderately narrow, well-traveled  
 and a bit dirty. Survey of the underwater  
 area not made. Exit of area: 1130

Swam from Lanikai beach, (end of the road)  
 to Twin Islands (Mokolua Is.) - water very  
 brown, nothing to report - no turtles sighted.

1/2/80 Sally Hopkins (bolt, nut, 2 washers w/wood)  
 Suspended by turtle pens (1/14/80 → boat dock)  
 (see letter in file 18-8 stainless)
