## Notes on Aika Copper case:

- 1.) Was he one of permit holders under Reg 36?
- 2.) Note his former commercial involvement - using nets.  
His presence at FFS - took turtles?
- 3.) Note ARB. <sup>Bring up with</sup> OHA. office - what Frank K. Grabely would they want?
- 4.) H.S. Comm. - Would this weaken their case?
- 5.) Also take Whales/porpoise?
- 6.) <sup>Cayman</sup> Copper can buy a turtle from Maui Company
- 7.) NIHAU Residents
- 8.) Without listing, it is endangered.
- 9.) "Aborig. method" - take on the beach
- 10.) "If its part of the <sup>TT allow?</sup> culture, and they're disappearing, that would make it ~~even~~ more important to protect them"
- 11.) "Tribe", as for American Indians
- 12.) Taken on high seas when small (ie squid gillnets)
- 13.) Copper represents commercial interests - but is asking for subsistence take. wrong.
- 14.) WCSTC  
IUCN policy
- 15.) Consider - other Pacific areas  
- Traditional constraints
- 16.) Status of resources
- 17.) Turtles sold to Navy (Planmijan)  
RIDGEWAY

18.) If subsistence use on aboriginal fishing rights are to be considered, then it should be for all, not just turtle fishing.

19.) Reduced habitat from erosion at FFS + Switch of tanks from East to West

20.) If important to culture it shouldn't be exterminated

20.) TUMORS
