G.H. BALAZS

G.H. BALAZS

2 OF 2

9 July Post-Mortem on mortality head rotting
 Found APPROX. 2 ⁵⁻⁷⁻⁸² midway
 found along shoreline -
 Dead

Left front flipper 7/8 off - but healthy

Curved - 44.8 length
 40.5 width

- stomach and intestines greatly distended with food
- green algae sample from the stomach

Fairly Fresh fish
 Found in

(Cargo) net mortality - near piers

head taken off by Jan

36.5 length

35 width

right flipper has deep rope cut
 (3 June 82?) Bill Streetert

pick up date

deep scratches on the plastron
light scratches on the carapace
probably by shark

- purple snail found in ~~stomach~~
esophagus (a few species)
- abundant presence of green fat
- stomach and intestines almost
empty
- found gonads (probably female)
- saving: carapace, plastrons
humeri
- (man made fibers in stomach)
- put crab legs in formalin (also
found in stomach)

14 July 82 Visited Hal-B-Dot II
 Wednesday vessel at Kewalo
 basin to talk about
 18" green turtle photo taken at

$34^{\circ} 43' N$ $175^{\circ} 08' W$

on 6/3/82;

Many "squid" netting boats
 seen first day up
 there they got entangled.

Jerry Ray was visiting
 Hal-B. Said he got over
 into East Cove and there
 were still Japanese netters.

Jerry will telephone me
 with some sightings of
 "reddish" turtles (2-3' diameter?)

The Canadian vessel "Sean Star"
 used a gill net up
 there.

Many of the albacore are
 scared from gill nets.

* Need to enter in Big Is. book

14 July 82

Wednesday from Paul Kawamoto - DOAR - telephoned

Mrs. Jessie Ke in Kau

at 928-8917

who reported that her & her husband saw a large brown turtle out nesting (near Horseshoe) on Saturday night 7/10.

Dug 3 holes - but it is unknown if eggs were laid. They were camped spending the night crabbing.

Other campers regularly use the site. She is concerned about others digging up eggs, etc. She has lived there since 1968. Husband works with Mr. Doty.

9-15-82 WEDNESDAY Lecture to SLP docents at St. George Church annex. one lady told about seeing turtle caught accidentally on pole & line at Bellows rock jetty #1.

9/15 → Attended staff meeting at HMB; Helfrich told me to write him note about ^{Stomura} EMPLOYMENT

9-15-82 Radio reported north swell high-surf warning. I believe this is first for the season.

9-17-82 Photo & caption on "no turtle taking" Fri Day came out in Hono Advertiser. John Naughton reports that WPPO has been receiving "many" calls all day. one person told of finding butchered remains regularly at Kiholo. People come down with "blue tarps" and lay nets all over.

John - good
 idea of dog & shark meat
 use - step in reconstituting
 a tropical usage

9/17/82 After work, John Naughton also
 described to me a meeting he
 attended today of the "Fisheries
 Advisory, Coordinating Council"
 chaired by Henry Sabuda -
 Governor's Council. Reps. from
 each island - A. Cooper is one
 of two from the Big Island.

Cooper had "Turtles" put on agenda.
 Complained. John said he was
 irrational as usual. Jack Davidson
 and Craven were there. Question of
 review came up again. Craven
 wanted to know "how to get turtles
 off the list". Davidson wanted
 to know "how many a year
 would be taken if subsistence
 allowed". Naughton mentioned
 "subsistence" definition & "enforcement"
 problems. Dale Coggshall was
 also there and supported Naughton.
 Cooper stated he "had caught
 more turtles than any other
 person in Hawaii". Agopad was
 also there.

Naughton mentioned to me
 about Cooper's previous attempts
 to claim "rights" to land
 on the Big Is. G.W. has
 checked on background and

- Naughton used to
 catch turtles and
 sell them

9/28 Viewed "The Heartbreak Turtle"
at Sinclair. (made a videotape
for myself)

Significant points noted:

1. "< 500 survive"
2. Blue Alflies tag put on (large)
3. "Experiment in Survival" (subtle)
4. Egg took responsible for Kemp's decline
5. Carr saw film, but didn't stay for meeting (1961)
6. "Size large enough to avoid most predation" Morey

WEDNESDAY

Kim WRIGHT - Brought by 28

→ [Ct. Com. Bernstein ^{VSLG} 682-60²⁶](for flight schedule
to Samoa)

pieces of seized wares -
Seattle - "Made in Philippines
exclusively for Bloomingdale's"
Included - ① small box ② 2 sizes of
picture frames ③ Nick-NACK Holder(?)
All objects were inlaid -
piced together in the same
manner - "mosaicked."

Also seen - scute from juvenile
sea turtle - judged to be
hawksbill.

Photos taken of K. Wright holding
some objects. Flame test -
fizzed and smelled like burning
plastic. Didn't burn like

plastic. Overall judgement -
scutes of hawksbill -
immature because of limited
thickness. Nothing typical
of hawksbill.

Importer said it was
from a Japan "water" turtle -
Chelonia japonicus.

10-25-82

MONDAY

Bob Bramstead visited the lab -
 very knowledgeable on sea turtle matters.

10-25 Discussion with Gene Wilburn
 and Naughton about Mauvalani
 Cooper. John visited ponds
 with ACE people - Cooper was
 belligerent at first when he saw
 them along the shoreline. Roger Harris
 is Project Manager for Mauvalani.
 Didn't seem to know anything about
 dispute. John saw a Smallish
 turtle. Didn't see limu, Kellum
 lived in area before and said turtles
 were in pond. Cooper ~~had~~ asked
 for turtles before, but now he
 has 5. Manager said, in response
 to John's question about turtles cleaning
 limu - "do you want official
 position, or deal?" Fish do
 all the cleaning.

John - Gene
Man - Kamin said they don't enforce
 the turtle law unless someone
 specifically calls. He wants
 someone to come out, do a survey,
 and show him they are threatened.
 Anderson's ^{COMPANY} recently paid the \$1200 fine

10/27/82

Wednesday

Mike (735-4537) Markovich visited
to discuss article on sea
turtles for his column.

Information he provided as follows:

- ① Kilauea Lagoon - boats coming in that
have caught turtles will throw
them overboard with an anchor and
line is they see an enforcement
agent checking on shore;
- ② He heard of practice of
slamming turtles into a
"bulk head" when underwater
- ③ Old Hawaiian man - who
works for Magnum PI filming (?)
Paftou - said turtles were
taken from there and quickly
transported to Iolani Palace

10/28/82 Thursday

Briefing on INVESTIGATION
 "TRIP TO THE BIG IS." A. Cooper

5-10,000 pounds per month
 taken commercially 1960's

Caught more turtles than
 any one person in Hawaii

"Used three tanks of oxygen cutting
 holes in sunken barge to free
 monk seals"

Turtle crawl into, or get washed
 into, Manna Lani ponds.

Management didn't get cc's of his
 letters. Offered to throw out
 turtles. Cooper will get board
 and Apaka and publicly take
 30 turtles and ask to be arrested.

Cooper repeatedly referred to him and
 Buzzy at French Frigate.

"He can catch 200 turtles in one day"

"Never takes anything under 200 lbs"

"Throws the big old males back"

There were different classes of "commovers".

 SUNS 11/11

5 NOV 82
 FRIDAY

10/27/82 Thursday Bob Seibert 967-7311 - Nat. Parks Service - called to ask what I might recommend for management measures at Hakape. Said that ~5-14 people are in the area abt. Thought that maybe leveling out mound would be wise. Would Hawaiians go for eggs? I suggested sign, but he didn't think it would be a good idea.

Possible Seminar Title: The Green Turtle Breeding Colony at Rose Atoll ^{Some ~~are~~ Biological & Historical Aspects of sea turtles at Rose Atoll & the Manua Group of American Samoa}

10-31-82 Sent tags to Bill Pulewa 6601-6650
SUN. 11/1/82

NOTE: Polynesian Cultural Center gift shop is inside gate - \$13 admission

5 NOV 82 FRIDAY Drove out to Kahuku to excavate the remaining nest site near the stream (1st reported - narrow tracks). Dirt road was very muddy with water puddles - almost got stuck. At beach I found the "debris" pile up very high - lots of sanding seems missing - water up over nest area. Impossible to pick a digging site. Saw small piece of squid gill net.

11/9/82 Miriam - told of talking to
 TUES. an older, Hawaiian man life
 guard at beach near turnoff to
 Makaha Candas - said that he
 regularly sees & takes turtles. But not
 the small ones. A younger lifeguard
 there said they often play with the
 small ones. Older man said
 he knows people who go to FFS
 and take turtles.

11/10
 wed. Met with Jack Davidson
 about my Sea Grant proposal.
