4/21 Monday Depart Honolulu for Nagoya direct JAway #183 210pm  
 8 hours 747 - only 200 people on board. Flew to north  
 of FFS - pictures - arrived ~ 5:30pm (5 hours behind) - beautiful  
 view of MT Fuji to right. Met by KOBAYASHI &  
 Aquarium Cal to ANA Hotel room 2505. unpacked walked around  
 district - bought bananas-water-bun at store. Up ~ 6 AM 4/23

4/23 Wednesday Light misting rain. Breakfast in hotel toast/coffee.  
 Picked up at 8am -> TO Aquarium Saw Uchida +  
 7 turtles in tray/baskets. Obtained correct MEK Peroxide  
 at Aquarium - they had bought a benzene product.  
 Started turtles about 9:30 AM, 4 ST 18 first, Keller  
 3 - ST 19's second. All received 3 layers + Castro. on front  
 Video & Print photos. finished ~ 2:30 PM (4-5 hours non-stop work)  
 Magnets put back on. 3PM lunch w/ Uchida at Aquarium Restaurant.  
 Drove to "Kitakami" 190m ferry at other area of NAGOYA Harbor  
 Loaded turtles into state room. My Room 104, Uchida  
 104. Misty rain. Ship departed about 8:15 PM. UP 4:30 AM TO

4/24 Thursday Arrange release of turtles light in sky ~ 5am. 5:30 AM  
 Each turtle lowered 3 cords in basket ~ 10m down from

Reas more to small size and Release

55th MAIL NMFS employee 4/17 Thursday

4/24/03 Thursday  
Third deck - ship still moving forward a few knots, Release done this way presumably for benefit of passengers watching from 4th deck (only 2030 present) "Rub Rail" at about 2-3M from ocean caused slight problem. Turtle "Lilo" basket videoed with line snarl in the water - other lines dropped or pulled out of their hands. Turtle out of basket but likely entangled in snarl RFF.

5/15/03 Project Proposal upon Return to School Sept.  
Thursday night Scan Social, physical, historical etc.

"Can't just make something."  
"Research - work - present"

Find community experts, they will come to presentation.

"Marketing Research" - Salad Dressing

Do it on their own

21/22 JANUARY <sup>EVENINGS</sup> - Presentations before Committee (or earlier) Failure to Graduate

23 JAN celebration day

MAY 23 Mentor Selected

9/15 project proposal - Research Portfolio 12/9/03

Mentor = "Guide through Process"

- 1) Process (evaluated on their responsibility) <sup>MAKE appointments - their responsibility</sup>  
to go to Mentor - constantly meet - suggest meeting they need to pursue mentor.
- 2) Research Portfolio (3 of team will evaluate it).  
Can't present unless passing score Score of "2" (Satisfactory)  
(top level is "4")
- 3) Presentation
- 4) Reflection paper 3 page <sup>sample</sup>

"Answer Central Question"

Outside person - Assist the student. Go out and find people.  
Require one, but more the better.

Group - each separate angle - separate binders.

Excited/interested. No Grade. "Opportunity & Challenge"

Must Have an essential Question.

JOE SPENGLER / EDWIN GREEN / SHAWN

# First Meeting <sup>wed</sup> <sup>thurs</sup> To Establish a Comprehensive Tagging Database for the Western & Central Pacific - WPRFMC

6/4/03

9 AM  
Wednesday

1164 Bishop St.  
Suite 1400  
Honolulu 96813

Introductions -  
Limpus presentation - stamps on the slide.  
Greenturtle nesting distribution slide (from Jeff's report)  
we leave a legacy "deal with it digitally" (as in imaging!)

Need lots - MW? or stickers; manuscript Balazs/Chaloupka; <sup>in</sup> <sup>imaging!</sup>  
copies of ITU; any cards; Polovina Reprints; <sup>et al.</sup>  
Card for Sea turtle stamp web site. T-shirt for Limpus  
My Tagging chapter;

- use a relational database, not a spreadsheet,
- "DATA BASE MANUTE That defines codes" - cool

6/5/03 SPC TUNA tagging presentation by Peter Williams

8:30 AM  
Thursday

Long Line Fishery - TUNA catch  
East of 150°W is FTT responsibility  
Tagging databases need Companion datasets &  
Size Composition, GIS, catch/effort, etc etc.

Bob Cullett

"Science vs Compliance" Mix/Saint Mix,  
- Paul Dalyell. John Seibert Maybe can build stock assessment Pacific (N.S.) models.

6/4/03  
2:30 PM

Job op presentation = SPREP DATABASE

Paul Dalzell - "Intellectual Property Rights" - academics to publish  
(comes w/ Microsoft office)

Visual Foxpro vs Access (both relational DATABASES but set  
up very different);  
Coh = "Hobby Time"

6/5/03

6/11/03 Wednesday Telecon w/ Denise re SPOT 3 - She says they are 0.5 watt 20-25,000 transmissions. AT 300 per day (here use for post <sup>spets</sup> .5 watt) We decided on 4 hours on, 4 off 2 on day 2 on night, - maybe 140-150 days?

16 JUN 6/16

6/14/03 Saturday 2pm meet w/ SLP Brian Mike & JIMMY HORTON

Voicemail 6/13/03

- DISCUSSED: 10 to Mauna Lanai 5+5 Mike takes 5 on July 2, me 5 on July 3. need stop feeding a few days before; (2) Small carriers to Mike, (3) FB inspection at airport
- Hawkbill w/ growth in shoulder, surgery yesterday (or this am) removed - piece given to me (to give to Thierry)
- All 14 examined this morning by Brian - blood taken.
- No word from MOC - they're happy as is
- Kahala want 2 to replace two they have.
- Some Motion Security System put in for turtles for poise.
- Proposal to raise 20-40 of this summer hatchlings 2-3 months then to M.I. Contracts.
- Discussed short comings of Marty - opportunities for new outreach.
- Kahala could raise far more than they have - ponds suitable as per BRAUN

- WORK STATEMENT - • SOLE SOURCE •

Project IDEAS:  
Investigate/Summarize/Facilitate/Provide a report, on loggerheads rearing facilities and loggerheads held in captivity as potential candidates for satellite tagging and release to study pelagic life history and ecology. Relevance of fishery interactions.

\*  
to write up  
7/12/03

② Outreach to Japanese tourists in Hawaii - scoping of avenues in both Japan. Signs and educational material, including children's materials incorporating loggerheads from Japan-Hawaii. Goal - Enhanced awareness of both Hawaiian sea turtles and Japanese loggerheads.

Young tourists from Japan fly over turtles when going to Hawaii for vacation etc. Turtles w/ soft wax coming toward Hawaii - Japan Turtle meetg. How - perhaps "off track" - a meet pelagic and few of them takes visitor friend to coastal Hawaii - fear of basking etc.

Cc: Shawn Murakawa <smurakawa@mail.nmfs.hawaii.edu>  
Subject: Re: [Fwd: Hooked green sea turtle]

He called at 10:10am on stranding line. Said he wanted to know who was in charge, name and email. I asked who he was and he said "Dirty Deane" and I told him that I would like to get a little more info so I can determine who he would like to email. He said he saw a turtle with an ulua hook (rusty) caught in RFF, and about 2' of sugi and a round egg sinker attached. He gave me GPS coordinates, and it was in Mauna Loa Bay, about 2 miles outside Kahala Hilton Hotel. He just wanted to send us photos he took so we can make a great rescue. He was very strange, but nice. Didn't want to leave a last name, address, phone #-- just an email address: (dgonz18496@aol.com). I gave him Shawn's noaa.gov email. (I wasn't sure if you would like me/us to give out your email... can you let me know for future?) He called back about 10 minutes later to say email address didn't work, so I helped him to compose correctly. He mentioned something about he's too old to know how to work w/ computers, he's old enough to have eaten turtles, etc. Very nice, but eccentric.  
GPS: 21 14.975N, 157 46.154 W

Also, you're probably aware of this but thought I'd mention it just in case. One of our prime whitetip sites is at Makai Pier across from Sealife Park in Waimanalo.

MAKAI PIER

We haven't had sharks there in the past few weeks but we've seen a minimum of 3 (up to 7 at once) small to mid-size turtles in the shallows there every morning for the past several weeks. -Most frequently between 6:30 and 8:30 AM.

All are in less than 8 ft of water and aren't deterred by people in the slightest. Not sure if that's any place you'd be interested in working with any animals, but thought I'd let you know just in case.

Aloha,  
 Nick

Hilo - Keawe Nui Recovered

DOCARE officer James Weller retrieved a large dead turtle (female) from 4 Mile Beach in Hilo. A swimmer had retrieved it and brought it to shore and DOCARE officer Weller took it to the DOCARE freezer. He said that it's 3-1/2 feet by 3 feet, no tumors, no injuries, looks fresh. Tags R522, R523, R524, and R525 present. I explained to him that we really would like the turtle, but that the MOP students were assisting you in the field at Kapoho so they wouldn't be able to call back till later this afternoon (plus I explained to him that the cellular coverage is bad there). He was fine with that.

10-8-92  
1-15-93

Capture at Keawe Nui, South Kohala  
SCL=53.6cm, CCL=57.0cm, wt=48.0#, no tumors

# TEAMING WITH TURTLES

Date: Wed, 20 Aug 2003 15:53:23 -1000  
From: Cody Hooven <chooven@mail.nmfs.hawaii.edu>  
To: George H. Balazs <gbalazs@honlab.nmfs.hawaii.edu>  
Cc: Shawn Murakawa <smurakawa@mail.nmfs.hawaii.edu>  
Subject: Gretchen Johnson- Kauai

She is the woman with the Kilauea Pt. Nat'l Wildlife Reguge on Kauai (you dealt with her re: a dead turtle at Rock Quarry not too long ago). She called the stranding line today (11:10) because she wanted to "get some signs like Barbara Frazier received" for a beach at the end of the road on the north shore of Kauai, called Ke'e. Its a popular snorkel spot, enclosed reef, with lots of turtles there. She identified herself as the monk seal coordinator, ans she also volunteers with the HIHWNMS. I let her know that you are busy for the next week at least, but I would let you know that she is interested in signs. She said to call her anytime about turtle strandings.

Subject: turtle w/extremely large tumor spotted in Napili

Aloha George,

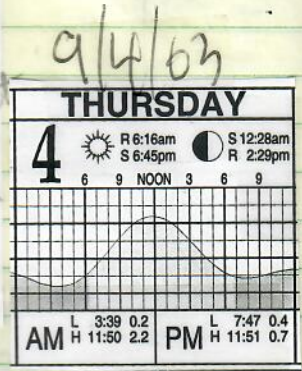

I got a call yesterday afternoon from a highly concerned citizen, Tiffany Young, who spotted a turtle with an extremely large tumor on its face earlier this week. When she first saw it, she thought the tumor was its head so this is a cause for concern. I gave her the information on what we, as a partner of the MTRP, can do. She was quite discouraged to know that we could not go out and rescue the turtle ourselves so I offered the next best thing, to notify you of the situation. She felt that this tumor was on the same level as the turtle with the spear in its head, extremely unusual. Therefore, I'm passing the info onto you. The turtle is located in Na Pili Point Cove where four other turtles also roam. She said that she'd like to send you a letter and/or speak to you on the phone. I gave her your info (hope you don't mind, she really wanted it). Her number is 268-1220.

Thanks,  
Joy

9/27/03 Via Etwan Morgan  
Marsha Botten Alii Beach large turtle - one eye  
SATURDAY 375-5693 <sup>sunburn in #2 tank in  
fruit trays</sup>

I drove there arrived ~ 12 noon - turtle wasnt  
there; Drift of Sargassum. Talked to 2 regular  
compos - seen turtle basking lately, but they come  
and go. I saw one turtle in the water (cloudy water).  
+ LANIAKEA - 2 hours sitting in chair on the beach.

9/30 Tuesday <sup>ETWAN</sup> evening SSG Chinese softshell brought to Lab -  
taken to Humane Society by Cody

~~10/3/03~~ Breakfast w/ DOMINIC & NORMAN RE FFS <sup>was with  
trip.</sup>

30 OCT. 03 KBAY - G.B, Bridget McBride & Civi Ling Cheng  
Friday Glassy But Swell Rolling over reefs  
making turbid conditions at the surface.  
Swam all the way around Reef 43 -  
~40 turtles seen many adults + 015.  
Caught juvenile. Top of MATHS Reef - deployed  
logger in large PCV. Caught 37cm SCL.

Come & go & Return? Put Sat tag on large subadult?

70-100cm turtle - missing growth data - INTRA.

Move KALOKO TO BETTER HABITAT. Density dependence. Model = "Flight simulator" (will they stay where you move them?)

Meta population - collection of populations

Stochastic = takes into account environmental variability.

\* Skeletal Chronology Hawaii = SCL 70-90cm. \* "Raise a very good point..."

Simulation Model = one tool for making decisions - policy tool. "True range of effects - need to vary all variables.

Change parameters collectively. 2002 paper in Ecol. Modelling.

Tortuguero - "dense areas of dense areas" - models.

Theoretically vs practical applications ARE CLASS TO SIZE VALUES.

Probability of Going to breed (females & Males) - How to guess other than a proxy? travel?

60 CAYMAN Oct 22-24, 03

"Turtle Pie" (Swimble-Bahamas)

October 22, 03 Wednesday Move out of shallow water into deeper water (to get larger turtles)

Flight Simulator

Tag Maintenance

But need "proportion of breeding by year"

GBR = "Males live closer to rookery than females"

"So males remigrate slightly more often"

23.5 - 33°C hatching probability - temperature

Need Record Digital Video interviews - Hawaiian/local - Cayman Comparison

"Take out offshore - compare grazed vs non-grazed (Biotin minor species etc)

Other species take over when greens go down - Density dependent Relationship,

Age to maturity drop from 31 to 25 years of age - Population exploded

Need - Genetics of Cayman <sup>have several</sup> breeding stock,

Need - SPOT 3 on 9-12 month old release Pelagic, need snorkel at night - Kewani; Kikoko; KBY Reef 42-43; Hanama;

Summer - different sand temp greater than season temp variations

10-23-03 8:30am

Thursday Madonna lunch - open Cayman mind, - to get it going "Rn"
