03 and 16 were released into the pods (same place as 50) at 1530 h. They both swam in a few circles before heading back into the pond.. 03 almost got into the outflow of the awai, but swam into the pond. They look ok and should be fine. Am attaching a couple of pictures I just took with the camera.

Subject: GREAT TO HEAR FROM YOU GEORGE

And I Do appreciate your remembering me at the Ceremony in Kauai Tuesday, perhaps it will send energy my way -- I need it, since I had some supplement poisoning last September -- and have lost a lot of pounds and it affected my heart rythm.. I look forward to recover -- but it's been a slow process..

Enclosed is a special Poem, made for your Ceremony Event on Tues. is not long, but to the point, if you care to read it, with the impact and rythm you can give it..

It is my humble donation to those who Love & respect The Islands what they stand for.. My love goes with it..

And yes, I think of the Shoals often.. We need to escape to the primitive beauty of Nature and what God provides -- not what man's his concepts result in.. The world is changing, George -- and there are big changes to Mother Earth coming..

I still receive Prophecy as before -- with the Gift The Lord gave in 1985.. And files with thousands of Poems.. The Master File has close to 6000 poems of all types, which are in categories for selection..

Anyway, my friend -- I will think of you at Kauai -- and my Spirit will be there to share in the beauty and joy of the Islands I love. I have been there many times in past lives -- and the Pacific has always been within my heart & Soul..

Blessings to you, and your family -- lets keep in touch for future sharing of events and happenings to come, to our lovely Planet.. Mankind has much cleansing and Karma to balance before the New Time arrives, which the Bible speaks of..

Until Later -- Aloha to You and all, from Emmett

Walk softly. Walk softly, stranger.  
The land on which you stand is  
Holy ground...a place of unspoiled  
beauty, colored by The Hand of  
God. And you who stand upon this  
land will someday too remember  
sun-washed sands and quiet days,  
and moments crystallized in time.  
Walk softly, stranger, for you  
stand on Holy ground.

5/19/09 TUES. DAY 1 SAN DIEGO

The worst enemy of creativity is criticism,

Leader not a boss  
want to follow      have to follow

Delegate to free-up some of my time  
to work on higher priority items.

Appreciation is number 1 "hunger" in work place.  
Addressed by "recognition" <sup>ALSO</sup> number 1 Motivator

Catch people doing something right and praise them.  
Tell superiors about teams working together.

Mission - ① Knowledge - ② DATA - ③ PUBLICATIONS

Begin with the end in mind.

How they fit into bigger picture.  
part in "work bubble"

Do they know significance of task they are doing  
dig ditches - show building results.

Ask someone to be your Mentor.

Play as hard as you work.  
Together Everyone Achieves More

TYPES OF PEOPLE 4 BASIC Personality/Behavioral Types

① TARGETED - Bottom-line people

• Be in control

• Biggest fear - being taken advantage of

③ Accommodating people want

relationship, everyone to get along

Best listeners. Biggest need - conflict

Biggest fear - conflict

5/19/09 Tuesday - DAY 1 SAN DIEGO

(4) Enthusiastic - Creative, spontaneous, expressive, outgoing, fun is important. Biggest need - Recognition  
Fear = of Being Disliked.

Everyone has  
BASIC understanding of 4 types.

"Anyone can 'school' themselves in being interested"

"Lots of mistakes" = something is wrong.  
Do "just enough" to get by.

The root cause of all negative behavior is fear.

Personal integrity is doing the right thing when no one else around to notice.
