SCANNED

Very kind of you to offer to take me up to the North Shore; I'd love to go but on one condition: that you wait until you have to go up there for a another reason and don't make a special trip.

Aloha

As is so often the case in nature prevailing physical con-  
ditions, though giving character to place, do not account for cri-  
tical characteristics of that place. Environmental extremes, brief  
in time but intensive in effect, are the true determinants of such  
physical landscapes.
