Hi George,

You are correct about all three turtles, I have included the data for turtles "E" and "I" which were both hatched on 7-15-2011. Thank you again for taking the time to provide us with the two tanks from your facility; we will put them to very good use.

All turtles released 11-6-2013 off Kaneohe Bay. Mauna Lani was last seen skipping across water. One hung around looking for tank wall-Wother swam off. Will plan on container pick-up at Makai on Friday. I will call you tomorrow to see what works for both of us-WBob

I have listed below the information you have requested for the three turtles you and Bob released last week. I will provide the PIT tag wrappers along with any others the next time we meet.

Subject: 3 turtles released by Dr. Bob

Aloha Jeff, nice to see you yesterday, thanks for you and your team's high efficiency offloading the tanks. Nice to have that accomplished!

The turtle released by Dr. Bob. What year month was the 33 cm Mauna Lani one hatched? And the other two, year and month? - 43.1 and 45.2 cm

Thank you very much, this information will be added to their computerized permanent records. Best regards, George
