Hi, George -

10:30 p.m. 8/2/90

Have to send you this before I  
 forget - came upon a tagged turtle  
 right off Pine Trees tonite (8:15 p.m.) left flipper  
 tag # 9916; right flipper # ?? 15 (1st  
 2 #s covered w/ algae. Young - 15" front-  
 back of shell - very clean - no tumor  
 sign. Has obviously been handled - did  
 not freak out when I gently turned flippers  
 to read tag #'s!! I was delighted -

Aloha - Lisa

*\* Robin Bond suggested I tell you I routinely see 2-3 turtles (not the same ones) inside the reef to the right of the cut. Usually 2 smallish, healthy looking ones + 2 larger, apparently older, more*

Seals and sea turtles are protected under Federal and State law.

**DO NOT DISTURB.**  
*comfortable w people, or less healthy. Some put markings on their chins faces (all 4). The 2 larger ones are partial amputees; one's left front + 1/2 left seal flippers.*

*every time I go in the last year or so (1/2) wk average.*

Hi, George -

7/8/90

#1. Ask Ray Tabata - we'd love to have you back - would like more in depth - repro. behavior; tagging processes, known breeding areas; size @ maturity, tumors, etc. #2. - NO TUMORS HERE, thank God - we're watching! About 1/2 doz. "babies" (dinner plate size - 10-12") have showed up up & down coast past 4 mos. "Miss Piggy" is fine - have I measure here - she's growing: Saw about a 4 mi. large - tho spends most of time in 1/4 mi. area "Piggyland" <sup>upon</sup> ~~shore~~ Aloha Sea

Lahaina, Maui

Aloha - I was talking with Andy Wood and he suggested that you would like to have these slides of a turtle - due to the white growth on its shell and flippers.

The turtle as it was swimming along kept rubbing its eye with one of its front fins/flippers?! as if it <sup>(the eye)</sup> was bothering it, no apparent sign of any growth around the eye.

I saw this turtle at a dive site known as "Red Rock" - Kamaiki Pt. off of Lanai, around the 2<sup>ND</sup> of Sept.

Please keep these slides as I have lots - I hope they will aid your research

Liz McNewin

Dear George:

Enclosed is the slide you requested of the  
Green Sea Turtle taken off of KanaLou point;  
Lanai on 6/2/90. As a dive instructor I often  
see these creatures at such places as Kaanapali  
reef and Olawalu. I would be happy to  
offer observations and occasional photos.

I can be reached thru Central Pacific Divers  
at 661-8718 or home 661-0382.

Thank You

Andy Wood

No tags or notable scars. Weather mild & sunny. Both turtles swimming close to shore, not in a big hurry to do anything or get anywhere. They looked green w/ brown in the

Seals and sea turtles are protected under Federal and State law.

**DO NOT DISTURB.**

Both seemed healthy. No visible tumors. We followed them about 50 yards or so before they swam off faster than we could.

Kahalu'u State Beach

Hi, George - 10/24/90  
Thank you pin - will wear w/  
guide! Will be interested in  
conference conclusions/info!

Turtle Notes:

Piggy - wk ago Sun. showed up  
w/ injured right eye. white ORB  
covering it - blind - very skittish!  
& very uncomfortable (vulnerable)!

Checked her over - no sign of sur-  
rounding tissue damage - appears  
to be healing!

Same area of a "Piglet" - 10-12"  
shell showing up consistently!  
Not tame, but not afraid either!  
Pig dived/bombed once - message  
was clear! Pulled up short of  
physical contact, tho!

Hawksbill seen end of Sept. back  
in Kealahou - have gorgeous  
photo - will send when I find it!  
Hadn't seen in long time!  
Baby has definitely moved into ->

cleaning station area. Have seen  
it several times - <sup>was</sup> in the  
station being cleaned  
last week. Will keep &  
posted. Take care.  
Lisa
