Did you get the pictures?

We just saw a large shark right at the edge of the reef.

Right past the last rocks in this picture. Probably about a 9-11 feet

**Marc Rice:**

Hi, No, the pictures didn't come through although the one of the rocks out toward the shark did... don't go swimming right now!!

+1 (808) 895-8795:

**Marc Rice:**

Got them- most definitely a shark attack- we will give it a chance to heal- it all depends on what happened to the underside. They are really tough critters and it appears that it would be able to survive the wounds on the dorsal surface. Things are really active at A Bay this week! Thanks for the photos. Take care and have a pleasant evening. Marc

We will not be diving tonight ☐☐

Thanks

**Marc Rice:**

Good idea- stay safe! Aloha
