## HAWAIIAN SEA TURTLE

*Honu*

**WE NEED YOUR HELP  
TO SAVE THE REEFS.  
PLEASE REMEMBER TO:**

- **Always listen to your guide and/or instructor and follow her or his advice.**  
Following safety guidelines can save your life and help to protect the reef.
- **Never touch, step on, or kick coral reefs or live rock.**  
Corals are living animals that eat, grow and reproduce and can be damaged by contact. They are also fully protected by State law.
- **Never feed fish or drop food or rubbish into the water.**  
Human food and bought fish food can sicken fish and other marine life and disrupt the natural interactions between organisms that keep the ecosystem healthy.
- **Never chase, move, or try to manipulate marine life.**  
This can stress and harm the animals.

**ENJOY YOUR VISIT TO THE  
PRECIOUS CORAL REEFS OF HAWAII**
