Rescue, Rehabilitation and Ocean Return involving MTBAP Captive Care of 516 Marine Turtles in the Hawaiian Islands

January 1990 - September 12, 2016

MTRP Care	MTRP ID Date	Species	SCL (cm)	CCL (cm)	Weight (kg)	Island of Origin	Stranding Location	Days Under Captive Care	Tumor Score	Treatment	Case No.	Cause
516	9/8/16A	Ei	4.4	4.5	14.3g	Oahu	Kailua Bay (North Kalaheo Avenue)	3	0	Hatchling washed ashore with a swollen left eye, lethargic. Over next couple days, turtle's energy increased and puffy eye became less swollen. Turtle released.	983	WH
515	7/16/16B	Cm	39.0	40.5	14.3	Oahu	Kailua (Kalama Beach Park)	14	0	Turtle found floating at the surface. Taken to VCA where X-rays showed gas in GIT. Given medication and fed until turtle was able to pass FM and stay submerged. Released after cleared by GL.	974	BU
514	6/20/16A	Cm	61.1	64.5	-	Oahu	Laie (Kokololio Beach)	<1	3	Turtle found on beach heavily tumored with fishing hook in RFF tumor and line extending down throat. Turtle brought back to IRC, hook/line removed, and assessed to be active. Turtle released.	966	FP/HK/LE
513	3/28/16B	Cm	73.4	77.5	52.9	Hawaii	Hilo (Onekahakaha Beach Park)	69	0	Turtle found with hook deeply embedded around RFF humerus. Hook surgically removed, then flipper surgically removed when wasn't healing properly.	959	HK
512	5/13/16A	Cm	-	44.0	8.2	Oahu	Kualoa (Ranch)	<1	0	Fishing line entangling RFF humerus and going into mouth. Line removed, checked by GL, no fracture. Turtle released.	956	LE
511	3/3/16A	Cm	-	-	21.7	Hawaii	Hilo (Richardson's Ocean Park)	72	0	Lethargic turtle washed up with propeller wounds to the carapace. Bone plates and metal wires attached to carapace to stabilize it covered in acrylic, along with	955	Boat Impact
510	4/13/16A	Cm	-	86.0	-	Oahu	Kailua (Kawainui Canal)	<1	3	Heavily tumored turtle assessed, and due to activity and minimal tumors on eyes and none in mouth, turtle was released on scene.	950	TMR
509	3/23/16A	Cm	-	60.0	-	Oahu	Haleiwa (Pohaku Loa Way)	<1	1	Turtle stuck in rocks when tide fell, with cracks in shell. Turtle was assessed, determined cracks were superficial and healing, and put back into the ocean.	949	TR
508	1/29/16A	Cm	38.4	~41.0	14.1	Oahu	Kailua Bay (Castle's)	<1	0	Hook removed from right side of mouth	942	HK
507	1/28/16A	Cm	42.8	45.0	23.3	Oahu	Waikiki Beach	1	0	RFF removed from a thread of tissue	941	LE
506.0	12/18/15A	Cm	39	41	15.5	Oahu	Pokai Bay	35	1/0/1900	LFF amputation	940	LE
505	11/25/15A	Cm	67.9	72.0	102.5	Hawaii	Hilo (Richardson Ocean Park)	48	3	Tumor removal surgery by Dr. Walsh at Feather and Fur animal clinic	939	TMR
504	12/31/15A	Cm	79.8	84.0	62.8	Oahu	Pupukea (Shark's Cove)	4	0	Washed over seawall during high wave event, stuck in pond. Small crack in carapace. Silver sulfadiazine cream put on wound and turtle released.	936	TR
503	11/14/15A	Cm	40.6	43.5	19.5	Kauai	Poipu Beach	10	0	RFF amputation	933	LE
502	11/20/15B	Cm	72.5	76.0	101.4	Oahu	Haleiwa Alii Beach Park	3	2	Body condition assessed, PCV taken. Turtle released as it was unethical to euthanize.	932	TMR
501	11/7/15A	Cm	62.6	67.0	74.7	Oahu	Haleiwa Alii Beach Park	2	2	Assessed by MTBAP due to jaw hinge tumors and eye tumors to see if Eu was necessary. Due to lack of oral tumors, turtle will be released	929	TMR

500	10/3/2015B	Cm	54.7	58.5	52.5	Oahu	Sand Island State Recreation Area	17	0	RFF amputation	924	FLFA
499	10/03/15A	Cm	98.7	105.0	280.0	Oahu	Haleiwa Alii Beach Park	2	0	Shell removed from wound and wound flushed with saline. 312mg of danofloxacin administered	919	Boat Impact
498	9/29/15B	Cm	85.9	91.0	-	Oahu	Haleiwa (Laniakea)	<1	0	Hook removed from left shoulder area	918	HK
497	8/30/2015A	Cm	51.3	55.0	30.8	Oahu	Haleiwa (Chuns Reef)	20	0	Turtle was given antibiotics and mineral oil. Monitored by MTBAP before releasing.	917	UNK
496		Cm			191.8	Oahu	Haleiwa (Laniakea)	3	0	Turtle had carapace mended by Dr. Morris using a dental filler. Released back at Laniakea on 9/8/2015	(795)	WO
495	07/12/15	Cm	89.8	95.5	102.3	Hawaii-E	Carlsmith Beach Park	3	0	Many phone calls from public concerned about large indentation on carapace. Turtle captured on 7/13/15 and flown to Oahu for veterinary assessment. On 7/14/15, RM used dental acrylic to seal up posterior end of crack and healing puncture on dorsal head. Turtle flown back to Hilo on 7/15/15 for release.	(725)	WO
494	6/1/15A	Cm	47.1	49.0	10.5	Oahu	Waianae (Electric Beach Park)	38	0	Washed up with fishing line amputation to LFF, injury to RFF shoulder, and other bruises related to mono line. Extremely weak/emaciated. Blockage in GIT. Treated with various medications over next 38 days (antibiotics, varied diet, appetite stimulants, enemas, Gas-X, X-rays, mineral oil) until ready for release.	914	LE
493	6/29/15C	Cm	68.2	73.5	46.1	Oahu	Haleiwa (Papailoa Road)	1	1	Found with large hook in LFF. Hook removed before SSG arrived. Turtle kept at IRC overnight, evaluated by RM next day, then released with no further treatment.	911	Hk
492	5/30/15A	Cm	44.8	35.4	12.0	Oahu	Haleiwa (Laniakea)	1	0	Turtle with hook in neck and tangled in fishing line found offshore. Contact brought it to shore, removed line. SSG brought turtle to MAC where RM removed	906	HKLE
491	4/29/15A	Cm	85.5	89.0	~80.7	Oahu	Hickam Air Force Base	16	0	Found nearshore entangled in 25lb net that had mangled LFF. Flipper surgery performed, turtle rehabbed in tank, then released.	903	NT
490	4/11/15C	Cm	47.4	50.5	12.2	Maui	Kihei	19	1	Washed up with necrotic RFF due to line entanglement. Flipper surgically amputated and treated with antibiotics at IRC until ready for release.	900	LE
489	4/1/15C	Cm	40.6	42.0	9.3	Hawaii-W	Puako	15	0	Floating turtle, unable to dive. Flown to IRC where catheter was placed to remove excess air in coelomic cavity. Turtle could then dive and was no longer	899	FL
488	3/24/15B	Cm	-	-	-	Oahu	Haleiwa (Leftovers)	<1	0	Stuck/wedged in the rocks. SSG responded and freed it	895	TR
487	2/12/15B	Cm	60.1	64.0	37.3	Hawaii-W	Waikoloa (Hilton Waikoloa)	19	0	Floater, with terrestrial debris in GIT. Flown to Oahu, set up in IRC tank, given Gas-X. Eventually no longer buoyant, and flown back to Kona for release.	893	FL
486	1/10/15A	Cm	48.7	52.0	14.1	Oahu	Waialua	14	0	Brought to shore by good samaritan with heavily damaged flipper. Flipper amputation surgery by RM, turtle recovered at IRC and then released.	888	LEFA
485	1/12/15A	Cm	69.6	73.5	47.4	Oahu	Mokuleia (Crozier Drive)	3	2	Assessed by vet and at IRC due to large tumor on RHF and eye tumors. Not emaciated, lots of vigor and energy, so released.	887	FP

484	8/22/13B	Ei	86.5	-	-	Hawaii-W	Pohue Bay (Beach)	<1	0	Nesting turtle with monofilament line entangling RFF. Line cut off by KVH, turtle released.	885	LE
483	10/14/14A	Cm	84.7	83.0	63.4	Hawaii	Hilo (Onekahakaha Beach Park)	50	0	Found with fishing strangling RFF, with humeri exposed and entire flipper necrotic. Turtle flown to IRC, received flipper amputation surgery on 10/23/14, remained in rehab until flown back to Hawaii on 12/2/14, released 12/3/14.	883	LE
482	8/7/14A	Cm	-	-	-	East Island	East Island	<1	0	Hatchling caught in fishing line on beach. Joe Spring removed line and released the turtle who scurried into the waves.	881	LE
481	9/15/14A	Cm	63.5	68.0	29.0	Oahu	Kailua (Kawainui Canal)	10	0	Turtle tangled in fishing line; RFF amputation as flipper already mostly amputated by fishing line. Brought to IRC for evaluation, then released when cleared by vet.	873	LE
480	8/10/14A	Cm	-	80.0	-	Oahu	Haleiwa (Alii Beach Park)	<1	0	Fishing line in mouth and wrapped around RFF. Turtle too large to bring to IRC, so SSG cut line as short as possible and released turtle on scene.	870	LE
479	5/25/14A	Cm	64.4	68.5	35.1	Oahu	Kawela Bay	4	2	Washed up on its back, set up in IRC tanks for observation. Had great energy and activity, so turtle was released with no treatment. NOTE: "604" mototooled onto turtle	(605)	TMR
478	4/28/14A	Cm	50.5	54.0	17.1	Oahu	Waimanalo (Kaiona Beach Park)	10	0	Fishing line entangling turtle removed by contacts. Line extending down mouth pulled and cut down as far as possible. Flipper nearly fully amputated by line; RM finished amputation. Swam in tank at IRC. Given Danofloxacin IM; turtle fed and ate very well over rehab stay. Passed some stool, no fishing line seen.	863	LE
477	4/14/14A	Cm	43.3	44.5	10.9	Oahu	Hanauma Bay Nature Preserve	1	0	Found swimming nearshore with 2 large hooks, 1 in each flipper. Brought to RM who removed hooks, cleaned with betadine and triple antibiotic, injection of dinofloxacin.	860	HKLE
476	3/23/14A	Cm	64.0	68.0	36.6	Oahu	Haleiwa (Surf N Sea)	9	0	Tangled in fishing line, assessed by RM, then evaluated in tank at IRC, given antibiotics for injured flipper and swollen eye. Cleared for release after regained more flipper movement and swelling in eye decreased.	859	LE
475	1/23/14A	Cm	72.6	78.5	50.3	Hawaii-E	Hilo (Onekahakaha Beach Park)	4	1	Flown to Oahu, swollen RFF due to fishing line entanglement. Surgical amp of flipper by RM.	849	LE
474	10/22/13A	Cm	48.2	51.5	14.9	Oahu	Mokuleia (Crozier Drive)	2	1	Live turtle first seen on shore with tumors on both eyes on 10/22/13. On 11/2/13, SSG brought it to A2. Very active upon evaluation. Deemed releasable with good vision.	839	FP
473	9/27/13A	Cm	-	-	-	Oahu	Kailua Beach	1	0	Hatchling found on beach with crab bite wound on ventral RFF. Held and monitored overnight in freshwater to rehydrate. Released next day at Perry's	833	WH
472	9/19/13A	Cm	-	70.0	-	Oahu	Honolulu International Airport (Reef Runway)	<1	2	Turtle's activity and tumors assessed on site. Turtle deemed active, and tumors not threatening, so turtle released on site.	832	FP

471	09/10/13	Cm	49.0	52.5	17.7	Oahu	Hanauma Bay	<1	0	Turtle caught as part of field work at Hanauma Bay. Had hook in flipper, removed by GHB, turtle measured and released on site.	831	HK
470	07/28/2013A	Cm	40.3	42.5	7.9	Oahu	Haleiwa (Laniakea)	12	0	Spotted entangled in monofilament by Malama Na Honu volunteer who brought it ashore and removed line before SSG pick up. Line was around neck and	827	LE
469	07/14/2013A	Cm	81.3	85.4	73.1	Oahu	Haleiwa (Laniakea)	24	0	Suffered from boat impact on dorsal head and LFF. Part of skull and L eye affected. Surgery to wire skull and flipper together performed by RM in A2. Transferred to KRF and given Danofloxin IM injections and SSd cream applications over weeks. Epoxy applied on head prior to release on 8/8/13.	826	WO
468	8/1/13A	Cm	71.1	77.0	43.9	Oahu	Kahana Bay Beach Park	4	3	Picked up on 8/2/13, evaluated by RM on 8/3 at MAC, no treatments done. Released on 8/5/13	824	FP
467	6/20/13A	Cm	52.4	56.0	21.8	Oahu	Aina Haina	<1	0	Turtle found on shore with fishing line entangling both FF, neck, coming out of both mouth and cloaca. Turtle brought to A2, all exterior line cut off/removed. Line cut as close to mouth and cloaca as possible. Slight swelling of both FF at proximal humerus. Alcohol and 1% iodine used to clean wounds from fishing line. Released at 11:30 AM - took one breath, dove down, and wasn't seen again.	818	LE
466	6/3/13A	Cm	66.4	72.0	42.9	Oahu	Punaluu	<1	2	Found on beach, about 10 feet above water line. Described as "very lethargic, barely alive." Picked up by MTRP, brought to A2 for evaluation. 10% vision in each eye. Vigor when handled. 10% bleach applied to leeches. Released at 3:30 pm - swam off, submerged, straight, strong.	815	FP
465	4/29/13A	Cm	48.0	55.0	14.1	Oahu	Hanauma Bay	<1	0	2 hooks removed from turtle's neck - one in right side, one in left side by Dr. Morris.	806	HK
464	3/19/13A	Cm	62.3	67.0	32.8	Oahu	Haleiwa Alii Beach Park	<1	3	Sprayed leeches with diluted bleach, left turtle in sink with freshwater overnight to dispose of leeches. Scraped leech eggs off turtle.	803	TMR
463	3/7/13A	Cm	64.0	70.0	37.5	Oahu	Haleiwa (Surf N Sea)	<1	2	Fishing net removed from mouth, tumor wound cleaned. Released late morning.	801	NT
461	2/16/13B	Cm	NA	44.0	9.3	Oahu	Lanikai Beach Park	<1	0	Brought to shore by snorkeler. Hook in R. eyelid. SSG took turtle to Dr. Morris who removed hook, gave antibiotics on the eye. Turtle released at Lanikai Beach Park by SSG.	799	HK
462	2/14/13A	Lo	61.5	66.0	32.7	Oahu	Malaekahana State Rec. Area	27	0	Contact removed cargo net/fishing line. Dr. Morris surgically removed RFF, given antibiotics and saline solution. Kept at KRF for RFF to heal and to resolve buoyancy - given multivitamins, food, mineral oil.	800	NTFA
460	01/07/13	Cm	64.4	69.0	36.1	Maui	Ahihi Kinau	1	1	Brought to shore by a good samaritan who found the turtle swimming with a hook through the skull just above the left eye and line coming out the mouth. Treatment

2 hooks removed from turtle's neck - one in right side, one in left side by Dr. Morris.
Accidentally hooked and reported by an Oio fisherman. Hooked turtle and had a steel leader. Cut line, but steel
Brought to shore and line around a "fin" was removed by public and released
Brought to shore by a good samaritan who found the turtle swimming with a hook through the skull just above the left eye and line coming out the mouth. Shipped overnight to MTRP via Aloha Cargo. Dr. Morris removed the hook
Brought to shore by snorkeler. Hook in R. eyelid. SSG took turtle to Dr. Morris who removed hook, gave antibiotics
Came up to bask. GHB and M.Rice removed TDR and satellite tag. Found with a 3-inch fishhook deeply imbedded in the ventral right shoulder. Hook was removed. Released onsite on 7/16/12.
Captive care at NMFS KRF

Captive care observation at NMFS KRF for lethargy
Cargo net entanglement removal by USCG Oahu and SSG, MAC veterinary treatment: evaluation in coordination
Contact and family found turtle while snorkeling/paddleboarding. Turtle was carefully placed on paddleboard, and used skeg of surf board and nailclippers to remove all fishing line entangling turtle's neck, body, and LFF. Turtle
Contact removed all fishing line entangling turtle, returned turtle to water, and it swam off uneventfully
Contact removed cargo net/fishing line. Dr. Morris surgically removed RFF, given antibiotics and saline solution. Kept at KRF for RFF to heal and to resolve buoyancy - given multivitamins, food, mineral oil.
Contact removed fishing line from turtle at north end of pond.
Contact reported turtle that seemed stuck in the rocks. Responders arrived and confirmed this. Turtle was hot with whitish shell, breathing heavily. Responders helped turtle back to the water where it swam away.
Crab trap entanglement removal by USCG Kauai in coordination with DAR DLNR Kauai
Cryosurgery for tumors by NMFS MTRP
Cryosurgery for tumors, captive care at NMFS KRF in coordination with NSD and SSG
Disoriented stuck on land, retrieved by PMRF and released into ocean
Entangled adult male turtle. Relatively small section of fishing net tightly wrapped around neck in 10-12 loops, not yet embedded into the flesh. Manager Duhr and FWS Volunteer Pablo McCloud were on-island at the time pulling thistle and sandbur and responded to the situation. Duhr and McCloud were able to restrain the turtle long enough
Entangled in 8lb fishing line around both front flippers and into the mouth. Marc Rice cut turtle free from ocean floor. Removed line and with it LFF fell off. Cut line as short as possible in mouth. Not seen by NMFS. Released
Entangled with fishing line externally and also swallowed. Removed all external line and as short as possible in the

Fishing net removed from mouth, tumor wound cleaned. Released late morning.
Flooded Ashore with a high tide. Lethargic. Released onsite by contact. Not seen by NMFS.
Found alive with fishing line wrapped around both front flippers, neck and down the throat. MTRP removed the fishing line and cut it as short as possible down the throat. Released at Kawaiui BP.
Found along edge of canal onshore with netting around neck and in mouth. Cut from neck by contact and removed as much line from mouth as possible. Allowed turtle to catch its breath, then released in canal by contact. Not seen
Found basking with a hook in right ventral front flipper base with line trailing. Line removed, but hook left in.
Found basking with hook in right ventral front flipper base. MTRP arrived onsite to remove the hook. Released

Found floating by a dock. Picked up by J.Viezbicke and shipped to Oahu via Aloha Cargo. Treated for positive buoyancy and a carapace injury at KRF with a full course of antibiotic injections. Carapace repaired prior to release
Found floating entangled in a cargo net by a good samaritan. Contact completely removed the net and released the
Found floating entangled in plastic pieces around the LFF in two places and also in the mouth. Plastic removed
Found hooked in dorsal side of the shoulder area on one side. The hook was attached to fishing line and weights that were stuck in the reef. Dehooked by a good samaritan in ~5ft of water and released in the water.
Found in shallow water with monofilament line entangled around neck and FF's. Removed by public. Possibly
Found in the water at Hanauma Bay and was brought in by a volunteer with one hook in the neck and one hook in the LFF. Picked up by SSG and taken to MAC. Hooks removed and turtle released at Hanauma Bay the same day.
Found in the water by the surf spot "Tracks" with a hook and fishing line attached to the LFF. Good Samaritan Diver cut the line and metal leader, but left the hook. Turtle never handled. Large adult male.
Found in water by a Good Samaritan entangled in line. The line had a hook that was attached to a rock and keeping it underwater. All line was removed. Turtle was released on sight. Not seen by NMFS
Found in water struggling in an unattended gill net. Netting was completely removed and turtle was released. Not

Found in water with fishing line and wedding veil with hair comb attached to left front flipper. Some of line and veil able to be removed. Some line still remains. Released onsite. Not seen by NMFS.
Found live entangled in rope from a crab trap around neck and LFF and tethered to the trap. Line removed by good
Found live with a fish hook deeply embedded in the neck. Dr Morris removed. Antibiotics given and taken to KRF.
Found live with a large plastic buoy with rope entangling the turtle's neck. Buoy and rope removed. Regained
Found live with no injuries, but lethargic as a hatchling. Rehabilitated at SLP. Released offshore from a boat with
Found live with some scabbing on the 3rd eyelid. Treated by Dr.Morris. Rehabilitated at SLP. Eyes healed
Found offshore and attached to a float made of bamboo and PVC piping attached to a 100ft fishing net. Good Samaritan divers released the turtle live. Not seen by NMFS, but there was a video in the media.
Found on beach, about 10 feet above water line. Described as "very lethargic, barely alive." Picked up by MTRP, brought to A2 for evaluation. 10% vision in each eye. Vigor when handled. 10% bleach on tumors (not eyes).
Found onshore with shark bite wounds. Head, LHF, carapace and plastron have superficial injuries. RHF was bitten 80% off. Bone exposed, but all wounds healing. Minor tumors on eyes and JH. Tagged and released onsite by
Found stuck in powerplant "rafter" with fishing line multiple times around its neck and RFF. HECO employees brought to land for MTRP pickup. Removed most of fishing line before MTRP arrival. MTRP cut line going down the
Found with fishing line wrapped very tightly around the neck of the turtle. Public cut off line. HPD on scene. Turtle
Found with fishing line wrapped very tightly around the RFF and then extending down the throat. Turtle taken to Dr.Morris who finished the almost complete amputation of the RFF. Cut the line as far as possible down the throat.
Found with tumors entangled in monofilament fishing net and entangled to rock wall by HIHWNMS office. Netting

Small EI entangled in a fishing net in the water. Dive company Trilogy Expeditions picked up the net, cut the net off the turtle, and immediately released the turtle into the water. Photo on facebook, video of cutting the net and releasing the turtle on Youtube. From video, turtle looks to be very active, swam away very quickly.
Spear removal from limb
Spotted basking but with a #4 tumor on LFF with line entanglement around both the flipper and tumor. Contact cut all line and noticed it was in the tumor. Attempted to remove the line from tumor but turtle went back to the water.
Spotted entangled in monofilament by Malama Na Honu volunteer who brought it ashore and removed line before SSG pick up. Line was around neck and both flippers with it going 3/4 though bone of RFF. Taken to RM at MAC for Xrays and RFF amputation on 7/29/13. Some line left in throat. Transferred to KRF for monitoring and IM
Sprayed leeches with diluted fresh water, left turtle in sink with freshwater overnight to dispose of leeches. Scraped
Staff reported 2 turtles stuck on rocks through at least 1 high tide and about 2m from the waterline. One turtle's shell was white from drying and were still moving. Responder and resort staff were able to remove both turtles
Staff reported 2 turtles stuck on rocks through at least 1 high tide and about 2m from the waterline. One turtle's shell was white from drying and were still moving. Responder and resort staff were able to remove both turtles
Suffered from boat impact on dorsal head and LFF. Part of skull and L eye detached. Surgery to wire skull and flipper together performed by RM in A2. Transferred to KRF and given Danofloxin IM injections and SSd cream

Tumored turtle came ashore with fishing line and tackle tangled in the tumors. Responders removed as much line
Turtle brought to shore with line wrapped around RFF and going into mouth, and multiple hooks around its mouth, with floats attached. Joe Fell-McDonald (Ranger at Ahihi-Kinai) untangled the line wrapped around the RFF, one small hook (size of a quarter), and a wood floater attached to it. Joe picked up turtle and brought it to Kaau Abraham (HIHWNMS) at the sanctuary. Joe and Kaau contacted SB who walked them through pulling as much line
Turtle caught as part of field work at Hanauma Bay. Had hook in flipper, removed by GHB, turtle measured and
Turtle found on shore with fishing line entangling both FF, neck, coming out of both mouth and cloaca. Turtle brought to A2, all exterior line cut off/removed. Line cut as close to mouth and cloaca as possible. Slight swelling of both FF at proximal humerus. Alcohol and 1% iodine used to clean wounds from fishing line. Released at 11:30 AM
Turtle seen stuck on monofilament line in about 3ft of water and alive. Freed, brought on shore and disentangled by
Turtle stuck in crevice, removed by good samaritans. Monitored while resting on beach, returned to water by next
Turtle swam into Dry Dock #4 at Pearl Harbor Naval Station. Dry Dock was drained, navy divers put it in a bag,
Turtle tangled in mooring line and possibly fishing line/hook. DLNR officer removed turtle from mooring line, dove
Turtle with a small hook with trailing line on RFF. Turtle would have been ok without hook removed, but Thierry Work judged it safe and good for public relations to retrieve animal and remove the hook. All went fine, took about
Turtle's activity and tumors assessed on site. Turtle was deemed active enough, and tumors not threatening
Up on beach for 48 hours. MTRP found only mild tumors and a turtle with lots of energy. Released onsite by NMFS.
