Description:                               Necropsy report:
Turtle found by Harriett washed up on GI tract filled to capacity. Stomach
the beach. Likely gill net                 contained Codium and (red filaments
incident.~ Scales at base of front
flipper "rubbed off" in band that is
indicative of gillnet entanglement.
Speckled coralline algae on
