

SEA TURTLE SIGHTING REPORT

(Please return to: George H. Balazs;
Hawaii Institute of Marine Biology;
P. O. Box 1346; Kaneohe, HI 96744;
Tel. 247-6631)

988-4475

948-8478

Observation made by: M. Williams

Address & Tel. No. (optional): 2544 Alaula Wy or U.H. Porteus Hall

Date: 2/21/81 Time: 1 PM Location (indicate

on chart): Off Kalapapa on Molokai 

Observation made from: shore; - yes

 boat; or while skin SCUBA diving.

Estimated size (shell length): 12-24 in

Turtle seen on: surface; or at depth of

approx. ft. Distinguishing

characteristics (species I.D. if known, long

tail, shell color, tags, injuries, etc.):

(Information on turtle parts recovered from fish or sharks would also be greatly appreciated).

Four sighted feeding at surface all at the same time.

Other comments: The local people at Kalapapa say they see them there "all the time" & are still taking them

for food but THANK YOU FOR YOUR COOPERATION "only the big ones now since there aren't so many."

- original landing site of father Damien & the Lepros.
