March 22, 1980

Mr. Balazs,

Serry this is way everdue.

We've had two months of beautiful weather since the first of this year and have been very very busy with fishing.

Now that our kamaaina weather has returned I've been trying to get other things done which I had been neglecting and doing repair jobs on all fishing equipments.

Of course the past rain storm didn't help, gave us more work but it didn't hurt us any, thank God.

Enclose is the last of the Ka'u Report published. The first page explains why. Also enclose is a picture of Mr. Schuster who writes his column (Think Ka'u) for the Hawaii Tribune Herald. He, at present is trying to see if he could acquire some funds somewhere to get the Ka'u Report going again.

So, maybe between these two papers the publicity of tag recoveries may help and keep publishing it every now and then.

Appreciate the Turtle buttons. Mahalo.

Sincerely,

*Arnold L. Howard*

Dear George,  
Alaka!

Finally got to see Ralph and got  
his mailing address for you.

Ralph Dodman

P.O. Box 469

Naalehu, Hawaii

96772

He really doesn't live down here  
in Punaluu, only comes down to  
fish mostly.

See a lot of turtle heads popping  
out of water for the past few  
days now - small and big.

Sure do appreciate the espies,  
pictures of Nihoa, male and  
female rocks and other reading  
materials of Punaluu or the  
Kau area.

Like you said, stay in the  
big Pavilion and let the police

know that you will be there  
so they will come down to check.  
Hope you and the family had  
a nice Easter as we did.  
Say thanks to Linda for the  
nice Easter card and note.  
See you guys soon —

Always  
The Howards  
Arnold & Janette

Dear Geage, Linda & boys,  
We were in Honolulu for a couple  
of days last week end. to visit  
Arnold's mom, celebrate our 21<sup>st</sup>.  
Anniversary and of course Father's  
Day too. It was kinda short  
but it was enough of all that  
rat race. Tried to call you at  
home but could not get an answer.  
Wanted to thank you in person  
for sending us the nice turtle  
book and the certificate of Merit.  
It was very thoughtfull of you and  
do appreciate them very much.  
congratulations for your second son.  
What is his name and when was he  
born? Now you need a girl (smile).  
For the last week we have been having  
strong trade winds and rough seas. &  
When it's high tide the turtles  
all come in to feed on the limu's  
at the bottom close to shore.  
all the tourist are fascinated  
especially when they come up  
for air, not only one but a lot.

of them here and there, of course. Some who have never seen one think they are seals or sea lions (smile) They even wait for them on the rocks to come up again for picture taking. We are still doing our everyday chores. Arnold fish every day when weather permits and catches a lot of ono's. July 22nd we are visiting cousins in California then from there on the 28th, Arnold will go Salmon fishing for 7 days at Ketchikan, Alaska. This will be his 2nd time and last time. He had gone there last summer and like it so well. I will be staying on in Calif. and wait until he comes back and we both will return on the 6th of August.

We also got a book from John R. K. Clark on "The Beaches of the Big Island" which I haven't as yet read.

Meanwhile, best wishes to all of you

Our Aloha,

Arnold & Jeanette

Hi! Christians.

JANUARY 1991

Thank you too for all the copies of handouts and the information on Turtle disease. Can't recall ever seen this type of disease in all the turtles we've caught and consumed before it was illegal.

Dear George  
our love to the family and

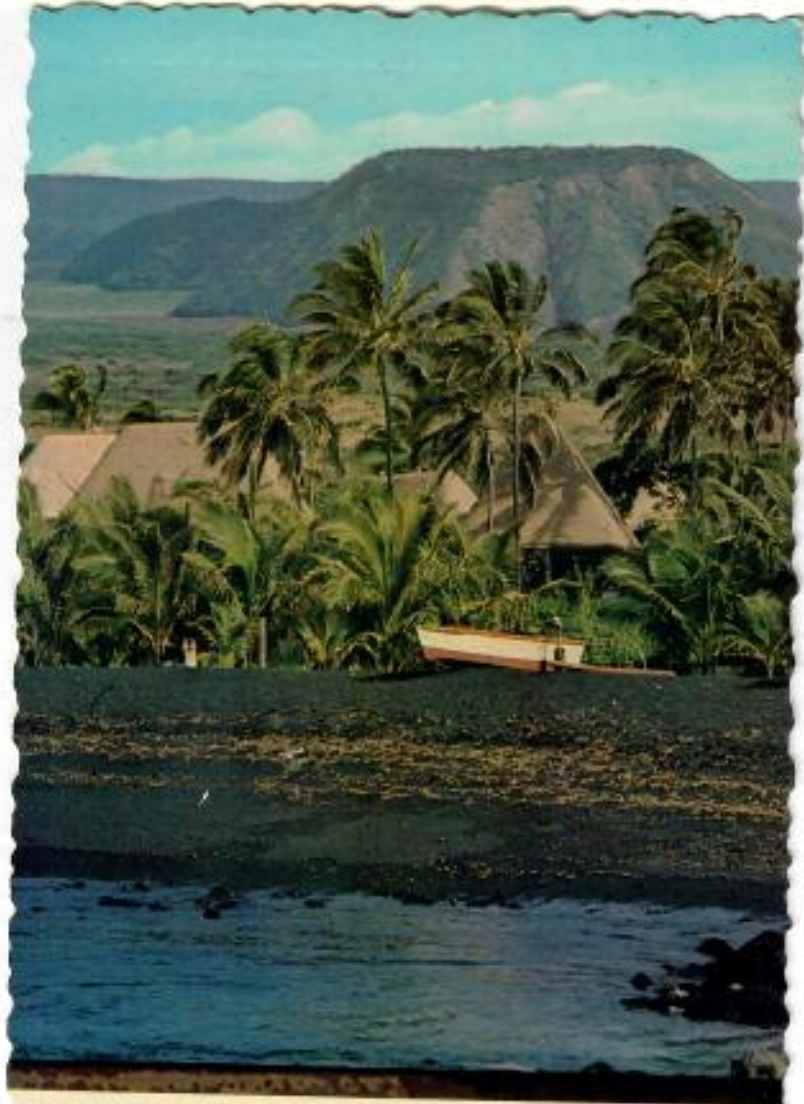

Thank you so much for your kind thoughts and warm holiday wishes.

Happy New Year

Much Aloha,  
Jesquette & Arnold.

Missed you when you came in Nov. somehow. Anyway, we didn't know whether you were with the group or not cause you didn't let us know.

Anyway, hope to see you in April - Oh! Yes, I heard you were in Volcano. Mrs. Aragona want to the mtg. or talk you good! I teach at Waialeale Sch. Now. K to 2 - Maybe while you're here you can talk to my 2nd graders - Oh! about the turtles. Let me know if possible or not - so I can prepare them.
