Dear George,

10/21/86

Today we released turtle with tags # 4970; 4971
The shell length was ^{C-} 17 ³/₈". Turtle appeared to be
in good health - no distinguishing marks or scars
except for the 2 tags. It was very happy to get
back in the ocean. Alan Brown (engineering) and
Danny Akaka jr. are great to have there - it
looks like at least for now MLBH will be glad to
support any turtle support effort.

Aloha,

Pete Hendricks

P.S. Daryl Lytkis man showed or called after we left
message at his phone #. Got some great release
picture however.
