Dear George:

Thank you for providing us a copy of your Necker Island study report. We agree with you that exchange of reports would be a good way of keeping each other informed of our respective research activities in the North-western Hawaiian Islands. Accordingly we will send you a copy of our marine resource assessment survey report and others as they become available.

Of the three reports you requested, we've located two (those written by Kramer). Copies of these are attached. As for Dave Marshall's report, I suggest that you write to him at the following address:

David B. Marshall, Senior Staff Biologist
Endangered Species Program
U.S. Fish and Wildlife Service
1500 N.E. Irving Street
Portland, Oregon 97208

Best regards.

Yours truly,

Michio Takata
