Turtles at Puako: S. Kohala

We have observed many cases of harassment of these endangered species. By Dogs, humans and yesterday some child who stoned the shell of one basking in the Sun.

Therefore, please consider posting signs on the 9 Beach rights of way to alert the public of this endangered species Turtle.

No harassment, do not go within 20 feet, keep pets away and caution children of the rules. Better Enforcement is badly needed.

I tried to get the State Resources Enforcement Agency to do this but they claim County Beach access roads are not in their jurisdiction (Hilo office). I was stunned in disbelief. Beach passing personified!

On several occasions I have personally admonished those who fail to use common sense.

PS There are posts in place. Leon A. Thevenin
