## THE SOUND BATH

Imagine being cradled in a floating sky chair in the center of a deeply resonant sound chamber, while expanding into the pure harmonics of quartz crystal singing bowls.

Scientific studies show that sound can produce changes in the autonomic, immune, endocrine and neuropeptide systems. Every atom, molecule, cell, gland, and organ of the human body absorbs and emits sound.

The **Sound Bath** produces an overall effect like a deep massage on the body, mind and spirit levels. With it, come waves of deep peace and relaxation that restore the body and refresh the soul.

## GROUP SOUND BATH

## EXPERIENCE THE ENERGY MACHINE

George Van Tassel was a test pilot for Hughes Aviation and Douglas Aircraft, pioneer of the UFO movement, author, visionary and inventor who described his creation this way, "The Integratron is a machine, a high-voltage electrostatic generator that would supply a broad range of frequencies to recharge the cell structure."

George spent 18 years constructing this 38-foot high, 50-foot diameter, non-metallic structure designed to physically rejuvenate all who entered the facility. He died mysteriously before he was able to complete the project.

The Integratron is open to the public for tours and Sound Baths. Learn more about Van Tassel's rejuvenation technologies and experience one of the most amazing sound chambers created on this planet. **Don't miss this unique opportunity!**
