

为了一个清新和自由的世界

For a Wet & Wild World

四月和五月除了为北京带来了春暖花开，
也为GEI带来了一些全新变化。

April and May brought waves of changes.

我们非常激动地宣布，GEI全新项目组——**海洋保护项目组**正式成立！在世界海龟日（5月23日）当天，我们在三亚启动了海洋保护项目组及其海龟保护重点项目，并参加了中国海龟保护联盟的成立大会。大会通报了2017年海龟专项执法情况，并放生了5只装有卫星追踪定位器的海龟。

We're bubbling with excitement to announce GEI's new program - **Marine Conservation!** On World Sea Turtle Day (5/23), we launched this program, its flagship project on Sea Turtle Protection, and the China Alliance on Sea Turtle Conservation as well as released five rescued sea turtles back to the ocean in a special government-hosted event in Sanya.

除了关注自身项目发展，GEI仍不断对时事热点提出见解。从国务院机构改革，中国禁止接收外来垃圾到汶川地震十周年，GEI都进行了相关分析报道。这个夏天，环境新闻热潮将会持续很久，不过不用担心，GEI见解依旧会给你带来清爽的报道！

We've also managed to keep our heads above the flood of news – from **Lianghui reforms** that changed China's environmental protection departments, to **China's waste import ban** and even the 10th Anniversary of the **Wenchuan earthquake**. This summer is bound to have high tides of environmental and China news but, don't worry, GEI Insight has you covered like trusty SPF.

我们希望你的夏天将会从“绿色”和安全开始！六月初，GEI将在缅甸举办一个为期两天的可再生能源和社区发展峰会。或许我们会在那里见面哦！

We hope your summer is off to a green and safe start! We're headed to Myanmar to host a 2-day workshop on **renewable energy and community development** in early June – maybe we'll see you there!

GEI在社区中
GEI in the Community

三江源摄影姐妹会

在一个特别的摄影培训活动中，GEI和来自Lensational的美国摄影师Hannah Wilson教授了三江源地区的如何运用相机进行交流，以及如何通过摄影来分享她们的生活经历。妇女所拍摄照片将会被义卖，所得收益将回馈三江源社区。同时，这些照片也将成为公众了解青海风貌的第一手资料。

在所有照片的打印和义卖工作准备就绪后，我们还将在北京举办一场特别的展览，敬请期待！最后，十分感谢为本次活动捐赠相机的朋友们！

Sanjiangyuan Photography Sisterhood

In a special photography workshop, GEI and Hannah Wilson, an American Photographer with Lensational, taught the women of Sanjiangyuan techniques to communicate and share their experience via photography.

The images captured by the women will be sold to benefit their own community and will be a first-hand entry point into the Qinghai experience. After the photographs are ready for print and sale, we will host a special gallery event in Beijing – stay tuned! Many thanks to those who donated cameras for this workshop!

2018年世界地球日

4月22日，GEI环境教育响应2018年世界地球日主题，号召大家减少使用塑料制品。我们携手北京老书虫书店、根与芽、北京户外科学研究（Beijing Field Studies）和简生活(Live with Less)，为20多位3至12岁的小朋友举办了“塑料污染的终结派对”。活动中，我们制作了可重复使用的环保袋，计算了自己的碳足迹，测试了北京的水质，并且留下了自己未来一年的“绿色承诺”！

4月23日，GEI对外联络团队赴天津泰达国际学校，为学生们带来了6节关于塑料污染的环境教育课程，并且向包括企业及政府部门在内的大家介绍了如何避免一个充满垃圾的未来。

Earth Day 2018

GEI Environmental Education dove head-first into the international Earth Day theme to reduce plastics on April 22. With partners from Jane Goodall's Roots & Shoots, Live with Less, Beijing Field Studies and the Bookworm, GEI threw a 'Goodbye to Plastic Pollution' for 20, 3-12 year olds. We made reusable bags, calculated our carbon footprint, tested Beijing's water quality and made promises for a greener next year!

curriculums about plastic pollution's impact on the environment and how each of us – as well as companies and the government – can stop the plastic-filled future.
