Dear George:

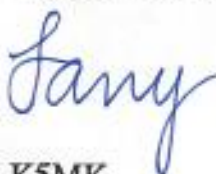

I can't tell you grateful I am for our QSO while you were operating portable on French Frigate Shoal. This is one of the rarest "Islands on the Air" (IOTA) locations, and you will probably be the only ham I will ever work from there.

George, I know you are very busy, but could you please take just a moment to locate our QSO in your log, sign and return the enclosed card? No printed QSL card is required: just your signature on the card I am enclosing. I have tried to make it easier for you and to save your valuable time.

I have also enclosed a "green stamp" (to help you with your expenses) and a SASE.

Many thanks for your help, George.

73, and God bless you,

K5MK

Hello, dear George,

I am happy to hear you from a new Island.
 French Frigate Shoals is a new one for my Island-Collection.

Please be so kind and confirm my SWL-Report with your QSL card.

Please, write the correct name of the Island at your QSL card.

Thank you very very much in advance.

For you and yours all the best, good luck and health.

Dear George, WH6BLQ

June 19, 1995

It was my pleasure to have the opportunity to contact you recently via amateur radio. You no doubt realize that all too often we cannot have the nice, leisurely QSO we would like when a number of factors are at work on the band these days. Propagation does not always make the copy the best and with the number of stations using the crowded radio spectrum there is QRM, hi.

I thought I would include a few items in a letter to go along with the QSL card enclosed. First of all, I have been interested in the radio hobby ever since I was fifteen years of age and my dad, Vernon described listening to shortwave stations back in the 1930's. Dad made it sound interesting and for eight years, shortwave listening and amateur radio monitoring as **VE3-7554** were important to me. However, I did want to talk too, so in 1965 I earned my amateur operator's license and became **VE3GCO**. In 1984, Communications Canada offered "older" hams two letter suffix calls and I was happy to receive **VE3XN**. The former holder of the call was Mr. Hobbs Langford, a radio pioneer in Canada, a radio inspector, and a manufacturer of the XN receiver. (Thanks to my friend VA3DN I now have a completely restored model of the **XN-4**. Needless to say it has a place of honour in the living room of my home.)

My interests in the hobby have always been DX oriented. I love collecting QSL cards and hope that you will confirm our QSO. All of the QSLs I have, more than 60 000 are filed alpha-numerically. Many of these QSLs were exchanged during the times that I have operated with commemorative callsigns or special prefixes to honour a special event of my community, province, or national activity. I first began using special calls in 1967...**3C3GCO** to commemorate the centennial of Canada. Since then, many others have followed. Some of these have included VA3HAM, CI3LSS, VY3CPX, XN3XN, **CF25A** (Canadian Flag 25th Anniversary in 1990), XN50A, VA3200M, VC350A, VD325E, etc., etc. All of these special calls were also operated to support the **Maple Leaf Awards program** which I have administered for many years. Along with the MLA prefix award, I am custodian for the increasingly popular **C.I.S.A. (Canadian Islands Award)** for working different islands of Canada. This island program was begun because of my interest in the enjoyable IOTA awards of the RSGB. In December, 1993 I became the first station in North America to earn the IOTA "750" Islands Plaque. Naturally, I continue to look for islands, worldwide. If you purchase the CD "**SEEK YOU**" by OZ1ADL and G3WZZ listen for "**XL3XN**" on cut 6 "**The Contest**"...that is I, hi, hi..!

Qualifying for awards has always been fun. For a number of years I published **The Radio Amateur Awards Directory of the World**. Perhaps when I retire, I'll get back to publishing it. In the meantime I have earned awards from 110 different DXCC countries. Presently, I like the challenge of collecting plaques rather than wallpaper, hi. DXCC has been worked on nine bands from 10M to 160M including the three WARC bands. Currently all countries have been worked and confirmed on SSB and MIXED. I still need A51, VU4, and a good 5A to have them all of CW, too, hi. I continue to look for new band countries and have been successful to the point of having 9BDXCC of more than 2 100 countries. hi. I also continue to look for new prefixes for the WPX Award of Excellence. I have more than 3 500 prefixes confirmed.

Since 1992 I have been doing the initial sort of QSLs for the **VE3 QSL BUREAU**. This involves receiving and sorting about 100 000 QSLs per year and getting them to the sub managers. It is a way of giving my time to others to help them enjoy the hobby too. I continue to act as a RAC checkpoint for WAS and VUCC awards offered by the ARRL.

In 1988, I was one of a number of radio operators who provided communications for the joint Canadian-USSR **POLAR BRIDGE SKITREK** expedition across the Arctic Ocean. At Iqaluit I used VE8XN, at Resolute I was QRV as CI8XN and CI8C and from Eureka my call was VE8XN/CI8. Long before this experience I have had a fascination with the polar lands. To this day I still enjoy hunting for northern and southern stations. I am keenly involved in working Antarctica stations. The **DIAMOND DX CLUB** of Naples, Italy sponsors the WABA and WASA awards. I am the Canadian checkpoint for these awards. Their plaques are beautiful!! I continue to enjoy working new bases and stations. I do hold the **TOP HONOUR ROLL PLAQUE** with more than 110 stations, 20 nationalities, and 70 plus bases worked over the years. Someday, perhaps after my retirement from **teaching secondary school geography students** age 15-19 years I will be able to travel to the Antarctic region. It is my dream to be active from a number of bases and call signs there. hi. Ever since Canada acceded to the Antarctic Treaty in 1988, this should make it easier.

Over the years I have enjoyed **travelling** and **photography**. Both of these hobbies work in very nicely with my teaching and radio interests. It has been my pleasure to operate from such places as W1AW, HV3SJ, 4U1ITU, 4U1UN, /KH6, /NH6, VE7EXPO, VE3GCO/VP9, VE3XN/VP9 as the 1989 Canadian contest winner, VP2SM, VP2DAE, VP2LC/p, 9Y4VE, 9Y4VE/Tobago, G4/VE3GCO, VP2MAA, VO7AA, UK3KP, UZ1AWA, and ZB2CX to name some. Visiting IA0KM and Box 88 QSL Bureau in Moscow and helping operate Canada's premier contest station VE3EJ have been thrilling too. Thanks to all my very thoughtful friends for these experiences!

I often write and/or contribute items to radio publications so if there is any information or picture of you, your station, your QTH, etc. you would like to share with me, I invite you to send it along with your QSL. I make every effort to obtain a copy of the publication for anyone whose photo or story is used. So please consider this request. On the other hand it is nice to always receive a QSL card when one is available, without anything else necessary. hi.

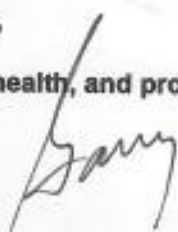

At present my station consists of a Yaesu FT-1000D transceiver. I use a TL-922, as necessary. I like to stay friends with my neighbours. hi. The antennas change from time to time but presently I use monobanders on 10, 15, and 20M as my QSL shows. An A3WS is used on 12M and 17M. My 80M antenna is a full wave delta loop and I try to load it on 40M. A simple dipole has provided me with more than 200 DXCC countries on 30M, and I have a simple inverted L on 160M. I must express my thanks to my good friends Dave Quail, VE3MDQ and John Slymer, VE3EJ for their engineering and maintenance work on the antennas here.

You can probably tell that my Dad, **Vernon E. Hammond**, caused my life to change for a lifetime. He provided me with my first shortwave receiver! For that, his love, advice, and encouragement I will be eternally grateful. Thanks to you, too, for being a part of the enjoyment! I hope that we will have the opportunity for another QSO!

73 from my family,

Good luck, good health, and prosperity,

Garry, VE3XN

June 19, 1995

Dear George,

Well, George, I was on a real roller coaster ride with you on the 20m band a couple of weeks ago. I'll go on to explain. I hope you'll read this..hihi.

As a long time IOTA chaser I have looked back at OC-055 and wondered if the French Frigate Shoals would ever come on the air, again. In five trips to KH6 in 1976, 78, 80, 82, and 1984 I had made inquiries but was discouraged and more or less told to forget the idea. hi. So I have waited patiently waited. Others tried including Italians all to no avail. Then along came the evening of June 7 local time and two friends called me and said WH6BLQ would be on from 0600. Terrific, I thought...and went to bed at 0200 UTC, 10 pm local time...set the alarm for 0550...and came down to the shack in time to hear VK9NS taking a list. I got on it easily. We waited. I worked on student evaluations...but started to get weary and told myself that if you did not show by 0800 (4 in the morning) I would go back to bed a try and get a couple more hours of rest. Low and behold there you were on the 7th of June at 0720...57 on the S meter...fantastic..you worked VK9NS, WH6ASW, KH6WU, and KH6JEB and had a nice time talking to your XYL and one young OM...I was happy you said you'd go freestyle since you were 57-55 for the 15-20 minutes of your ragchewing with the "local" Hawaiian fellows and family...but by 0734 with KH6ACD, a yl working you, the band started to QSB...you got to work KC6MYL..WD8MGQ and others...AA7AV..AA0AV...then the fading became very pronounced as I called on the peaks. hi. You were working Europeans too..G3MCS at 0749..to ON4ADN...F9RM by 0800..F9GL KA5TQF, W6RT...and I thought VE3XN at 0814 ...unfortunately N6AWD kept calling in over you..by 0816 you were talking to Guam and went on to SM3KOR at 0818, G0LRJ and by 0830 when you were back to 53 copy you were going to bed. I had heard you say you would try to back on about mid day your time...unfortunately, I had to go to Kitchener-Waterloo, a city 60 km from here and get some coloured slides processed for a colleague's retirement. I was giving the presentation to our school's assembly of about 1200 staff and students. So..when I returned home at 0000Z on the 9th I was told you had gone to change a battery...many had a good QSO with you in the 2300+ hour that I was driving back here....I waited as VE7IU and KH6WU called but you were obviously working. That evening morning at 0600 I got up again looking for you...but unfortunately you did not show. That was a short night with just 4 hours sleep...That afternoon I came home and was told you might be on from 2200 to 2300 UTC when you would QRT..I kept the guys company but no luck...you must have been getting your work completed and were loading up for the return flight to Oahu.

As far as I am concerned I made a contact...although NOT a very good one with all the QSB and the QRM from N6AWD and other enthusiastic callers. hi. I don't know how you had the patience to stick with it. Wish I could have made a better QSO!...

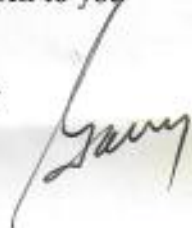

page 2 to WH6BLQ from VE3XN

Thank you very much George for our ROSE atoll QSO from before and I still cherish the piece of antenna wire you placed on the attractive photocard of the turtles!

If this QSO was not acceptable...have you any idea when you or any other naturalist may go back to French Frigate Shoals????

73, and good luck to you

Garry, VE3XN

"STAMPEDE CITY AWARD"

Sponsored by Calgary Amateur Radio Association

Obtain 10 points by contacting Calgary amateurs
on any band/mode from Jan. 1, 1962.

Log information "ONLY" required. VE6's can
qualify by operation outside of Alberta.

Available to SWL's.

The following stations VE6A0, NQ (CLUB STNS)
& LIFE MEMBERS: AP, GQ, MX, RH, RQ, SA, =VK=, VO,
VE7DE & VE7OK each count 2 points.

Other Calgary stations count 1 point each.

Send log information to Award Manager:

Russ. A. Wilson VE6VK,
1235 RICHLAND ROAD N.E.,
CALGARY, ALBERTA, CANADA
T2E 5M5

Cost of Award is \$3.00 U/S.

Dear George,

Thank you for putting on French Frigate Shoals, a very rare IOTA.

I think you did a very good job & to take the time off from your busy work schedule is very much appreciated.

I saw a TV show or maybe it was the story in National Geographic of the islands.

It was extremely interesting on the monk seals & the hazards they put up with, especially the sharks.

I wish you well & hope you will find the time to

 BUTTERNUT 80/40/30. 73 BUZZ

Julbocken is in fact a goat made of straw. It's also a Christmas tradition. Julbocken was said to bring sweets
 to the good children. Every year the merchants in Gävle put up this giant goat. This is a local Christmas
 tradition. Unfortunately it has also become a tradition to set fire to it. The merchants have tried everything,
 from guarding it to making it fireproof, but it seems to be a difficult job, to make it last to Christmas.

YOUR QSL IS GREATLY APPRECIATED FOR THE MANY AWARDS I CHASE!

"THE WASHINGTON TOTEM AWARD"

The Western Washington DX Club, the Northwest's largest and most active DX group takes pleasure in issuing the first major W7 award. This award is issued to any licensed radio amateur who submits proof of two-way radio contact with the state of Washington. The totem pole shown on our card and colorful certificate is typical of the totem poles once found in the state of Washington.

1. Applicants must submit proof of QSOs with 100 different Washington stations. Twenty (20) of these must be confirmed contacts with different Western Washington DX Club members. DX Stations need only confirm 25 Washington stations including 10 WWDXC members.
2. General certification rule applies. Submission of QSL cards is not required. Your cards may be checked and certified by an officer of any recognized Amateur Radio Society or Club. DX stations may submit Log data in lieu of QSL card confirmation.
3. All contacts must be dated January 1, 1973 or later.
4. Certified lists submitted should be in alphabetical order with date and time in GMT.
5. The WASHINGTON TOTEM AWARD is free to all stations outside of the United States. U.S. stations must include an application fee of \$1.00. If QSL cards are sent to WWDXC for checking, sufficient postage must be included with the application and confirmation list for their return via first class mail.
6. SPECIAL ENDORSEMENT: The "WASHINGTON TOTEM AWARD" may be issued for specific bands or modes if all supporting information is included with the application.
7. The WWDXC will furnish a current membership list upon request including a SASE. Send all mail to: Awards Chairman, Western Washington DX Club Inc., PO Box 224, Mercer Island, Washington 98040 U.S.A.

March, 1977

July 1, 1996

Dear George:

your signature at the end of this note will confirm my contact with your French Frigate Shoals operation (IOTA OC 055) per QSO information as shown on the front of this QSL card. Please return in the enclosed SASE.

SMOKE TREE IN DESERT WASH June 8

The solitary smoke tree is generally found in desert washes where the roots reach 60 to 70 feet into the damp earth. The smoke tree has no leaves, but its myriad spines, from a distance, resemble a puff of smoke.

Photo by George Service

POST CARD

Address

CHRISTIAN BRAZS
992-A ANAHAUANA ROAD
HONOLULU, HAWAII 96825

Dear Christian,

It was a tree like this that caused it. I turned the truck around to go back & look at it, the wheels hit the sand in the shoulder & the truck sort of sunk. I was stuck solid in the middle of the Mojave Desert, 9:30am & already close to 100°. I was 18 miles from this Vindictive Center. I was stuck in, I swear to God, Fried Liver Wash. Ominous name. I got my water & started walking. Fortunately, a German family picked me up after about a mile. So now I'm here, waiting for a tow truck. There's no phone for 30 miles, only the park ranger's radio. You know, I love the Joshua Trees & the desert - I'm certainly getting a new & different perspective this time.

© Western Reprint Publications & Novelty, P.O. Box 4465, Palm Springs, CA 92263
Printed in the U.S.A.

By the way, the back wheel looks funny, & I'm very worried I'm wrecked the truck. I think I can understand a little how you feel when you write your letter. I also think I'll be out of here in time to catch my flight home by the 10th. I'll talk to you soon.
Christian
