George,
 I was surprised to get thro' with only 3w. That night after the TV went off I ran full power and had a big pile up from Europe. I told them I had worked KH3.

The next day you had a big pile up from Europe. Word gets round the world fast.

Often work in your direction on Saturday 0000-0600GMT or sometimes on the inter island net 0800GMT 14.315MHz.

Look forward to working you from the home
