Subject: Balazs (2022)- The Fight to Take Back Hawaii- Including Sea Turtles- "Victims of Premeditated Theft". Message to Cturtle.

Sitting here in my Nagoya hotel room I came across this 2022 message archived on my web page (see link below). Yes, strong words, but I assure you it's strength that will be needed to achieve progress. And along the way there will be many (yes many) that will not like your words nor you as a person. Please take that as a sign that you are indeed heading in the correct direction. George
