Print Saito Sat Tagging at Kochi

From George Balazs <itsahonuworldinhawaii@hotmail.com>

Date Sat 6/14/2025 4:56 AM

To George Balazs <itsahonuworldinhawaii@hotmail.com>

Sorry I misreaded.

We have satellite tagged 6 turtles in total.

In 2023, two bycaught turtles at Muroto

In 2024, one nesting female at Kochi Beach and three bycaught turtles at Muroto

$$2 + 4 = 6$$

Release point

From 森 昌範 <m-mori@nagoyaminato.or.jp>

Date Fri 6/13/2025 8:54 AM

To Larry B. Crowder <lbcrowd@stanford.edu>; honu world <itsahonuworldinhawaii@hotmail.com>; George Balazs <honumazu@gmail.com>

Dear Larry-san, George-san,

I have informed MOL that I would like to release the third cohort of sea turtles in 2023 (39°18.9' N, 146°04.0' W) and 2024 (39°33.4669' N, 148°29.7291' W) at locations close to these coordinates.

They will prioritize ensuring the release can be conducted safely while setting the release point, but do you have any additional requests for the release point that you would like to convey to MOL?

Best,
Masanori Mori

George-san

We have received notification regarding the naming of the 13 sea turtles we requested from MOL. The 13 names are as follows.

AI/ASAGI/GUNJO/RURI/KONPEKI/AMA/SEJI/MIZU/SORA/SEIRAN/HANADA/HEKI/SEIGAIHA

N=13

The MOL representative explained the naming process as follows. "We have combined the elegant appearance and mysterious ecology of the loggerhead sea turtle, which can be described as the 'guardian of the sea' traveling through the vast ocean, with the delicate aesthetic sense of Japanese culture, using Japanese names derived from the traditional Japanese color 'blue.' Through color names that evoke beautiful blue seas, we hope that more people will become interested in marine conservation, the preciousness of nature, and the interconnectedness of life, and that this will serve as a catalyst for protecting the oceans of the future."

Best,

Masanori Mori

日時: 2025年06月10日(火) 13:23(+0900)

Yes, Larry did. I have 15 names awaiting assignment when we are working on each turtle. At the same time, we will assign a number for labeling each turtle- this Cohort will be No 54 through 81 (28 turtles).

81

I hope MOL will send the names before we start working. That will make things easier for us.

N=28

- >
- > As in the past two years, would it be OK as an allocation of 13 Japan, 5 U.S., 5 Hawaii, and 5 Mexico?
- > I am going to let the MOL decide on the Japanese names, but I would like to decide on the number of names
- >
- > Best,
- >
- > Masanori Mori

Here are the Mexican names. **COHORT 3 NAMES**

They come from localities along the Pacific coast of Baja California, where loggerheads swim to or by. Hopefully, these names will be cropping up as we track the mover of the 2024 cohort once they reach the Baja Californian coast:

- ~~Ulloa~~ - as in Bahia de Ulloa
 - ~~Vizcaino~~ - as in Bahia de Vizcaino
 - ~~Abreojos~~ - as in Punta Abreojos
 - ~~Cedros~~ - as in Isla de Cedros
 - ~~Magdalena~~ - as in Bahia Magdalena
- N=5

On Tue, 6 May 2025, 20:45 Jeffrey Seminoff - NOAA Fe
Hi all,

If we are thinking American names, here are a few to
names that we've used...perhaps verging on the 'chei

These first four are from the Teenage Ninja Mutant Wi

- ~~Dante~~
 - ~~Leonardo~~
 - ~~Raphael~~
 - ~~Michelangelo~~
- N=3

And these four, while not Mutants, are also from US an

- ~~Crush~~ (well-known character from Disney and Pixar's
- ~~Squirt~~ (son of Crush)
- ~~Garfield~~ (a popular stuffed animal character and turk
- ~~Shelly~~ (was a friendly but slow turtle, demonstrating ti

Thanks for humoring me!
Jeff
