Subject: My Personal yet Professionally-founded Opinion- FWS Policy Statement RE: For Jeff- Google Alert - turtles (fwd)

Jeff- I find this to be a Serious Insult and an Assault, whether intentional or not, on Hawaii's premier marine park green turtle conservation outreach breeding and release program. I find it incomprehensible, from both solid science and social responsibility standpoints, that such a statement by a federal administrator (whomever that is) employed in a respected USA federal conservation agency would and could issue such an uninformed edict. I say 'uninformed' to give the benefit of the doubt as to if they know anything whatsoever about Sea Life Park's program.

Before I say anything in the way of a suggestion to you, may I ask- Have you seen this document from any other source? I have not, it was only exclusively sent to me by Richard Farman, Aquarium des Lagons (recall he visited with you at the Park in 2005. My point is that it needs to be determined if the document is legitimate, viable and in effect (or will be). Or, might it have been abandoned or some such thing. Perhaps you have some ideas how to go about this? My point being, that after thinking about this a bit more, I believe that the entity and people (that would include me) being insulted and assaulted need to take a proactive timely approach in support of their reputation(s). Sincerely, George

Hi George,

This is very disappointing and I cannot believe the USFWS would make this type of comment.

Sincerely,

Jeff
